WILL FOLLOW BRITAIN'S LEAD

Canada Is to Adopt the Regulations Devised by England as Outcome of the Titanic Disaster

FOR OCEAN-GOING PASSENGER SHIPS

Certificates Issued by Department of Marine to Be Recognized by Board of Trade in Old Land

OTTAWA, Aug. 23.—Reciprocity in shipping regulations, so that certificates issued by the Canadian department of marine shall be recognized by the British board of trade under the merchants shipping act, is planned by Hon. J. D. Hazen, who during his stay in England has taken up the matter with the British authorities.
At the present time a Canadian certificate of a ship's sailing qualities is not recognized on the other side at all, though the board of trade's certificates are recognized here. It is desired to remedy this situation. The new rules to be adopted by the board of trade as a result of the Titanic disaster will be copied by Canada as regards ocean-going passenger ships. Cargo vessels will not be included. Inland shipping is wholly a matter of Canadian jurisdiction, and while the rules governing it may be strengthened, the British regulations will not necessarily be followed. Nothing will be done here in regard to the ocean passenger ships until the British board formally takes the amendments to the act which are in course of preparation.

BELEAGUERED BY MOORS

French Troops Ordered to Raise the Siege of El Ghlawi's Headquarters

TANGIER, Morocco, Aug. 23.—A French army has been ordered to march to raise the siege of the headquarters of El Ghlawi, which is now beleaguered by the Moors. The troops will march under command of Colonel Mangin. It is expected they will take four days to reach the neighborhood of Marakesh, which is now in the hands of El Hibi, who has proclaimed himself Sultan. It is feared, they will have some fierce fighting on the way.

Several Frenchmen are with El Ghlawi, who is friendly to the French. Grave fears are felt as to their fate. These Frenchmen are Vice Consul Jacques R. Maigret and the three French officers who were engaged in organizing the local police at Marakesh. The four men left that city after its abandonment by the French troops and tried to make their way to the coast. It is known that they found the road barred by hostile Moors, who forced them to return to Marakesh which has in the meantime been occupied by El Hibi.

RIFLE RECORDS

Concluding Matches of Ontario Association Met at Toronto

TORONTO, Ont., Aug. 23.—More records were broken today in the final matches of the Ontario Rifle Association meet, although the weather conditions were the most unfavorable of the entire meet. A strong, tricky wind in sharp gusts made shooting difficult. The Tait-Brassey match was the big event of the programme, and was won by Sergt. Armstrong of the Thirteenth, Hamilton, regiment, with the remarkable score of 104 out of 106, beating last year's score by 13 points and creating a new record.

In the Tait-Brassey match, Captain N. Smith, of the 24th regiment, Chatham, also scored 104, but was placed second as the Hamilton man's count was technically better.

Waterworks Inquiry

OTTAWA, Aug. 23.—To crawl through 1600 feet of the narrow dark interior of the intake pipe at the bottom of the new aqueduct will be the work which Messrs. Haycock and Stuart will undertake as soon as the aqueduct is dried out sufficiently to permit it. The interior is only three feet six inches in diameter and the task will be an exhausting one. They are acting for the city solicitor, who is conducting the investigation into the waterworks department.

ALDERMAN RETRACTS

Chief of Police Lacey of Edmonton Is Completely Exonerated

EDMONTON, Alta., Aug. 23.—The resignation of Chief of Police Lacey, which was presented to the commissioners yesterday, was refused by that body this morning, and the chief recommenced his duties. A re-organization of the department was referred to the council. Alderman Day today issued a complete retraction of all that he had said derogatory to the police department and apologized to Chief Lacey. It is understood that this will end the suit for slander against Alderman Day which is now pending.

UNDER SECRETARIES

Proposal That Dominion Government Should Follow British System

OTTAWA, Aug. 23.—When Premier Borden and his colleagues returned to Ottawa they will place before the cabinet council a scheme for the creation of the under secretaries to Canadian cabinet ministers similar to that which obtains in England.

Cyclone's Damage

ERIE, Aug. 23.—Roaring like a tremendous blast, a cyclone which is believed to have attained a velocity of 80 miles an hour broke over Conneaut Lake at Edinboro, near here at noon today, inflicting five casualties and entailing a loss estimated at \$15,000. Without warning the cyclone came out of the northwest. It was accompanied by a heavy rain.

NORMAL SCHOOL PLANS ACCEPTED

Design Submitted by Mr. W. C. Gillam, Vancouver, Found by Judges to Best Meet Needs of Training Institute

Another step has been taken towards the realization of the plans of the government for the establishment of a normal school in Victoria, in which the young men and women of Vancouver Island who desire to follow the teaching profession may obtain the necessary training.
Out of 15 designs for the building which were submitted in competition by architects of this and other Canadian cities, that of Mr. W. C. F. Gillam, Vancouver, was yesterday accepted by the minister of education on the recommendation of the judges appointed to consider the competing designs, Messrs F. M. Rattenbury, Victoria, and Cox, Vancouver.

It has long been the wish of the minister of education that a normal school could be established here, and he was finally able to make his plans to that effect.

PROJECT FOR COLONIZATION

Work of Company Launched by the Duke of Sutherland Will Be Unique in Its Character

LAND PROVIDED FOR BRITISH SETTLERS

WINNIPEG, Man., Aug. 23.—Steps towards completing the organization of the colonization company recently launched by the Duke of Sutherland were taken at a conference in the Royal Alexandra hotel this morning, at which the Duke, Sir Wm. Mackenzie, Sir Wm. Whyte, A. W. Nanton and J. S. Dennis, of the C. P. R., were present.

Sir Wm. Whyte explained afterwards that the directorate is not yet fully made up, and that the necessary capital has not all been subscribed. No specific plans for development, he stated, can be taken until the organization is completed. It is certain, however, that the company, known as the British-Canadian Colonization company, will undertake a colonization scheme of imperial significance. For many years the Duke of Sutherland has carried on colonization work on no mean scale in Alberta, and the larger concern will not differ greatly in its objects from the original experiment. The Duke's interests in Alberta, it is said, are not to form a part of the new project, but will be retained by him as a private holding.

When all details are settled they will proceed on an imposing scale that will rank as unique in colonization work. From coast to coast tracts of land will be acquired by the company to be settled by farmers from the British Isles.

PERPETUATION OF FORESTS

Mr. James Lawlor Explains Aims and Ideas of Canadian Forestry Association Soon to Convene in Victoria

PUBLIC HAS HUGE INTERESTS AT STAKE

Great Problem Is to Make Area Unfit for Cultivation Revenue Producing—B. C.'s Forward Policy

VANCOUVER, B. C., Aug. 23.—"There seems to be a great deal of misunderstanding about the aims and ideas of the Canadian Forestry association. We are not at war with the lumbermen, and we are not opposed to the cutting of trees. Just the reverse is the case. We want every ripe tree cut as soon as there is a market for it. We want the farmer, the stock raiser and the fruit grower to have all the land suitable for their requirements."

The speaker was Mr. James Lawlor, secretary of the Canadian Forestry association, who is staying at the Hotel Vancouver. He is in the city making arrangements for the annual convention which will be held in Victoria shortly.

"All land fit for cultivation should be cleared and made profitable," he continued. "The great question is to make the area not fit for cultivation revenue producing. Take the province of Quebec, for instance. If it could secure a revenue such as the German states get from their forest lands it would derive the sum of six hundred millions annually. That can be done by a proper system of reforestation. Keeping the forest growth in full swing means the maintenance of the streams and rivers at an even level and a consequent enhancement of the water powers."

"What has the common man to do with the question of forest protection and preservation? Fully 75 per cent of the cost of the timber in the lumber yards goes to labor. If one hundred millions' worth of timber is

CAPTAIN W. H. LOGAN

Special agent of the London Salvage Association, who left on the S. S. Salvor last night for Panama to superintend attempt to raise the S. S. Newport.

MR. CHURCHILL MAY POSTPONE VISIT

LONDON, Aug. 23.—It is rumored that the proposed visit of Winston Churchill, First Lord of the Admiralty, to Canada has been postponed, according to The Weekly Nation, pending a settlement of the naval question between the Imperial government and Canada.

PRESSURE OF BUSINESS

Premier Borden Unable to Receive Delegation of British Suffragists

LONDON, Aug. 23.—The suffragettes have been making a special effort to get Mr. Borden to receive a deputation from the women's society of political union. The premier has declined owing to pressure of business which will occupy him until he sails for Canada on the 30th.

Workman's Terrible Fight

PEKING, Chi., Aug. 23.—After working all night, workmen of a bridge crew today rescued A. L. Schmidt, who was imprisoned for nearly 24 hours in a cell 35 feet beneath the Illinois river. The calson used in the construction of a bridge was covered last night by a fall of earth. Schmidt had to be cholorformed while men dug away sand which surrounded him up to his chin.

FREIGHT RATES IN THE WEST

Rumor That Reply of C. P. R. May Have Bearing on Government's Decision Respecting Stock Increase

OTTAWA, Aug. 23.—That careful consideration will be given before the government's permission is granted to the application of the C. P. R. for power to increase its capital stock seems to be the general impression in official circles. The application is not likely to receive consideration until after the return of Premier Borden from England.

WHOLE ARMY IS CALLED OUT

King Nicholas of Montenegro Prepares for War With Turkey—Further Fighting in Progress

AUSTRIA TAKES HAND IN BALKAN UNREST

Proposals Looking Towards Peace to Be Made by Ottoman Delegates in Negotiations With Italy

LONDON, Aug. 23.—King Nicholas of Montenegro has called out the whole of his army and there is great excitement on the frontier where the fighting proceeds as though war had been declared, telegraphs the correspondent at Constantinople of the Daily Chronicle. Both sides have suffered heavy losses, wires the correspondent, who adds that the Russian ambassador there is trying to settle the quarrel.

The correspondent of the same paper at Paris says:

"King Nicholas has signed a decree of mobilization and it is feared that war will be declared. It is reported that Austria has occupied Novikar to the east of Montenegro."

Turkish Reinforcements

CONSTANTINOPLE, Aug. 23.—Turkish reinforcements have been ordered to Soutario, Albania, where the garrison today repulsed the attack of a large band of Malissori tribesmen.

Although nothing yet has transpired with reference to the instructions given by the government to the Turkish delegates entrusted with the semi-official peace negotiations with Italy, nevertheless it is believed that Ottoman delegates will propose that the Hinderland of Tripoli, with an outlet to the Mediterranean, shall be left to Turkey, the rest of the territory to the coast line remaining in the possession of Italy.

In diplomatic circles here, however, the success of this proposal is doubted. Indeed it is the belief of persons conversant with the situation that peace is not yet in sight. In any case, nothing definite is expected to be done by the Porte until after the forthcoming parliamentary elections.

Requests to Dominion

LONDON, Aug. 23.—Among the requests of Reginald Heber, of France, a member of the stock exchange, the Canadian government is to receive 12 original drawings from Romeo and Juliet by Frank Dicksee, R. A.

BRITAIN'S GRAIN BY PANAMA ROUTE

Leading Importer of Bristol Comments on Advantages Enjoyed by Pacific Coast Ports—Passenger Traffic

STEAM FREIGHTERS TO REPLACE SAILERS

VANCOUVER, Aug. 23.—"I see no reason why the opening of the Panama Canal should not be followed by the inauguration of direct passenger and freight service between Bristol and the Pacific coast. Bristol is a great wheat importing centre, but just now it imports most of its wheat from Russia and the Argentine. We want the best Canadian wheat, which is as good as, if not better than, wheat grown elsewhere, and which now goes from Montreal to Liverpool. Once that wheat is shipped to Pacific Coast ports for export there is no reason why it should not go to Bristol which is the nearest British port for vessels coming through the Panama canal."

The speaker was Mr. Henry Hazwood, one of the leading grain importers of Bristol, England, who arrived in the city this morning and is staying at the Hotel Vancouver. Continuing, he said that Avonmouth, which is a port on the river Avon, had been fitted up into one of the best equipped harbors in England. The sum of \$15,000,000 had been spent on it in recent years and now it was able to handle the biggest ships afloat. "Most of the Canadian trade has been going to Liverpool from the eastern Canadian ports, but we are in a more favored position than Liverpool. For instance, our nearness to the Welsh coal mines means cheaper coal, and that is a big consideration. Then in regard to passenger traffic, Bristol is only three hours' run from London, whereas Liverpool is five hours."

MURDERER'S IDENTITY

Mystery As to Past of Man Responsible for Domestic Tragedy

EASTBOURNE, England, Aug. 23.—One of the greatest mysteries in the annals of English crime seems likely to be placed on record in connection with the four murders and suicide committed by Hicks Murray here on August 13. Ever since that date the detective department and a host of reporters have been investigating every possible clue to the murderer-suicide's identity, but no progress has been made in solving the problem. He was supposed to have been an officer in a Scottish regiment, but this has been proven erroneous.

In his marriage certificate Murray gave his father's occupation as a bar-ber, but no trace of such a person can be found. Beyond this certificate and his claim to have been a soldier in India, Murray never spoke of his past. The burial of Murray and the woman and three children who were his victims is to take place tomorrow at the expense of the town.

Strike Is Over

FORT WILLIAM, Ont., Aug. 23.—The striking C.P.R. and G.T.P. freight handlers have decided to give in and the sheds will be full of laborers in the morning. This decision was reached as tonight by the strikers. There had been big demonstrations from the ranks during the day, and convinced that their cause was unpopular, the leaders felt that it would be unfair to the faithful few who remained to hold out any longer.

DOUKHOBORS AND RESPECT FOR LAW

Sittings of Commissioner, Mr. Blakemore, Will Begin at Nelson Next Thursday—Enquiry to Be Thorough One

Mr. William Blakemore, who has been appointed to hold an inquiry into the conduct of the Doukhobor communities in this province, leaves today for the interior to begin his duties. He will be away for some weeks, as the investigation will be a very thorough one. The commissioner will hold public sittings, at which he will receive sworn testimony, and will also make a personal survey of the conditions at several settlements where the so-called Russian Quakers are to be found. His instructions are to make a searching and impartial investigation into the whole conduct of the communities, and his report for the civil law and to ascertain the truth or otherwise of the many complaints which have reached the government and which were the reason for the issuance of the commission.

The first public sitting will be held in the city of Nelson on Thursday next, and will be followed by sittings at Trail on September 2, at Grand Forks on September 3, and at Brilliant on September 10. The principal settlement of the community in British Columbia is at the latter place, but there are small bodies at other points, although it is the general understanding of the authorities and the public that all are under the leadership of one man, Peter Verigin, who was the chief of their leaders on the prairies.

Thorough Inquiry

The commission issued by the lieutenant-governor appoints Mr. Blakemore to "inquire into the organization, habits, customs and practices of the Doukhobor community at Grand Forks, Brilliant and elsewhere in the province, including in the inquiry an investigation into the nature, source and scope of the authority held or exercised by the leader or leaders of the community over the other members thereof, the tenure and ownership of property, real or personal; the solemnization of marriages, the registration of births, deaths and marriages and domestic relations generally; naturalization, the observance of law, and generally all matters appertaining or relating to the community and its social, intellectual and religious life."

In order that the inquiry may be as thorough as is possible, the commissioner has been given the power, not given in cases of other commissions issued under the public inquiries act, to subpoena witnesses and examine them under oath or affirmation, orally or in writing, and to require the

Continued on Page 2, Col. 5.

SALVOR OFF TO PANAMA

B. C. Salvage Co.'s Steamer Leaves to Attempt to Raise Wrecked Pacific Mail Liner Newport at Balboa

VOYAGE OF NEARLY FOUR THOUSAND MILES

Record Trip for Similar Vessel From a Canadian Port—Captain Logan, Lloyds' Agent, on Board

Bound to Panama, 4,000 miles away, the steamer Salvor of the B. C. Salvage company left last night on the longest trip ever undertaken by a Canadian salvage vessel, to raise the sunken steamer Newport, 2,735 tons, of the Pacific Mail line which lies in 35 feet of water on a muddy bottom, alongside the wharf at Balboa, the Pacific coast entrance to the Panama canal.

It being necessary to secure the consent of the Dominion government to the departure of the Salvor on such an extended cruise, the proper representation was made to the acting premier, Hon. George H. Ferguson, by Mr. Frank H. Shepherd, M. P., for Nanaimo constituency, in whose jurisdiction, as a federal member, lies the port of Esquimalt. The opportunity of not only rendering precious service at a critical moment to British shipping interests in the Pacific but of securing a very great advertisement for Esquimalt as headquarters of the finest wreck-salvage ship available along the entire stretch of coast line, was promptly seized by Mr. Shepherd, and he made such representations to Mr. Ferguson as led to the prompt acquiescence to his request. In shipping circles yesterday opinion was unanimous that in this Mr. Shepherd had performed a service to this section of the province, the importance of which it would be hard to estimate.

The government, in giving permission for the Salvor to proceed on her long salvage cruise stipulated that the B. C. Salvage company should provide a suitable steamer to take her place, and the Santa Cruz, of the Puget Sound Salvage company, has been engaged, while the powerful tug William Joffe, at present engaged in the fishery protection service, steamer Maude and store barge Isabel are also in commission.

Captain Logan Goes

Captain W. H. Logan, special salvage agent of the London Salvage association, who makes his headquarters at Victoria and looks after the interests of underwriters on the North Pacific coast, went south on the Salvor in charge of the enterprise. The departure of the Salvor to Panama, emphasizes once again the shipping importance of the port of Victoria. It is the base of the largest salvage plant on this side of the Pacific; in fact, the Salvor is the only vessel on this coast equipped in such manner to cope with the work of raising a wreck at such a distance. Being equipped throughout with salvage gear, her main deck being a floating machine shop, the Salvor is the best vessel for this work in the Dominion and on the western coast of the Pacific. Prominent shipping men state that the salvage plant is second in importance to that of the Liverpool Salvage association.

The steamer Newport, used in the service of the Pacific Mail company between San Francisco and Panama was lying alongside the wharf at Balboa with the bulk of her cargo still aboard last Saturday morning when the big shed on the dock collapsed. Thousands of tons of wreckage slid across the bow of the Newport, and the steamer began to settle. The crew, when the crash was heard, escaped, and in a short space of time the vessel foundered in 35 feet of water.

The Wrecked Newport

Capt. W. H. Logan has received a report from the divers who went down to examine the vessel. They state that the Newport lies partially on her side, close to the dock, inclined 20

Fifty Years Ago Today

(From The Colonist of Aug. 24, 1862.)

Another Canoe Robbed By Indians—The Indians at the mouth of the Skeena river have robbed another canoe-load of Stikine adventures. Six men arrived here yesterday from that quarter and state that they were robbed of everything but their canoes by the ill-armed cannibals. This is the third robbery that the same tribe has perpetrated this season. They appear to have fallen in love with the Europeans. The sufferers should be sent back to the spot on one of the gunboats and made to point out the guilty parties.

Encouraging From the Bentinck Arm Route—Capt. Lyons, of the schooner Antelope, arrived on Saturday from Bentinck Arm in a canoe. He has been through to Alexander, and is returning and was only eight days in making the trip to the head of navigation. A Mr. Spain made the same trip in six days. Pollock's train from Cariboo had arrived at the big lake and got through in a few days. Great confidence was felt in the future of the route.

Blue Inlet Road—The Blue Inlet company are preparing for active operations. Mr. Waddington, with thirty workmen, will leave here this week and proceed to the road and prepare to open it for travel. The entire distance from the first point on the Fraser to the Fraser's mouth is 213 miles, only 18 miles of which is land travel, with two portages between the lakes. The road charts have been signed by the government.

ESQUIMALT MAY AVOID AN ELECTION

At Meeting of Ratepayers Held Last Evening Feeling Was That First Board Should Go in by Acclamation

At an enthusiastic and well attended meeting of some 150 ratepayers and property owners of Esquimalt last night it was decided that an endeavor should be made to avoid the expense of an election in the selection of the first reeve and council, who will only hold office for the last three months of the year, and accordingly a meeting of those qualified to vote was called for next Friday evening, when an effort will be made to come to an agreement as to the candidates to be nominated. His speaker after speaker addressed the meeting, there was evidence of a widespread satisfaction at the success which has crowned the labors of the residents of the district in forming Esquimalt into a municipality, and one and all expressed the hope of the future and a firm determination to work for the betterment of all who lived within its bounds.

A Business District.

Mr. C. H. Lugin, whose speech lifted the whole matter above the realm of small party feeling, pleaded for the exercise of a broad-minded spirit in the treatment of the question of their municipal life. It was a matter of no small importance; it would involve large sums of money being spent, large business interests would be involved, and it behooved his hearers to weigh wisely the qualifications of the men into whose hands they entrusted the welfare of the municipality. He believed that the district would, with all the developments that were to be expected in the near future, be rather a business district than a residential one. Large industries would be seeking to establish themselves there, and they must choose men of business ability, men accustomed to the economical handling of large sums of money, whose methods would inspire confidence in large corporations who sought to come there. It was necessary that rates should be kept down to a figure which would not deter business men from establishing industries there. He himself lived in a part where they enjoyed considerable advantages over residents in some other portions of the district, but he wanted to see all Esquimalt's residents enjoying the same privileges of good sewerage, good water supply, and he would like to see the municipality obtain control over its water supply. He congratulated his audience on the formation of a municipality and wished it every success.

Mr. Lugin's speech was greeted with hearty applause, and eventually voiced the opinion of the majority of the meeting. He was followed by Mr. J. MacAdam, who, as one of the pioneers of the movement to establish a municipality, concurred in all that the previous speaker had said. But he emphasized the necessity of care in economy. Taxes must not be allowed to grow so high as to deter people from coming to settle there. They might take a lesson from the neighboring municipality of Oak Bay, where its inhabitants were prosperous and a very moderate rate of taxation, and yet good work was being done. He hoped, as a beginning of a career of economy, that they might find it possible to avoid the expense of an election of their first council and reeve.

Question of Sewerage.

Mr. T. Johnson asked what time would be required to sewer the whole district, and the cost, and was informed by Mr. MacAdam that the sewerage commission considered this might be done in two years at a cost of from \$125,000 to \$350,000, and Mr. Lugin informed the same gentleman that all churches and institutions would be bound by law to pay their share of any taxation.

Mr. J. Mesher hoped that in connection with subdivisions no streets would be allowed of less width than 66 feet and no lots of less than 50 feet frontage. In this way slums might be best avoided. (Great cheer.) Esquimalt had a great future before it. The Panama canal was in sight, and he was confident that within a short time they would have a second railway running through their territory.

Mr. Henry Croft laid stress on the value of the land, and especially the waterfront, in their municipality. They owned, not merely Esquimalt harbor, though that was a roadstead that any city in Canada would be proud to own, but a good portion of Victoria harbor as well, and all the waterfront between the two would be wanted in time to come and be of the utmost value. The speaker gave figures to prove how immense must be the progress of this reeve consequent on the rapid development that was in progress all over the Dominion and on the increase of population that that meant. They had heard from a previous speaker of one industry which they had at present, namely, the B. C. Salvage company, which was doing work that no other company could do between here and the Panama canal, and that was but one of the many they might expect in the great future that lay before them.

Mr. George Sheldon Williams hoped that the size of lots might be not less than 60 feet.

Advocates Day Labor.

Mr. G. J. Cook urged that all classes should be represented on the council, especially the working classes. He advocated day labor, the minimum

Port Hardy, on Hardy Bay, near Government wharf, from \$115. Terms—\$15 cash and \$15 per quarter. Apply Croft & Ashby, 124 Pemberton Building, Victoria.

Port Hardy, on Hardy Bay, near Government wharf, from \$115. Terms—\$15 cash and \$15 per quarter. Apply Croft & Ashby, 124 Pemberton Building, Victoria.

union rate of wages and an eight-hour day.

The chairman, Mr. J. Carter, warned the men who worked with their muscles not to underrate the work of men who used their brains. He would advise that the council should be composed of men of good business abilities, together with representatives of the men who worked with their hands. He would like to see some of the government reserve utilized as a park for the residents of Esquimalt and their families, and though he was surprised to hear Mr. Lugin say that this would probably be an industrial rather than a residential district, he recognized the importance of encouraging capitalists to come by letting them see that their interests would be protected by good municipal government.

Mr. J. S. H. Matson moved that a meeting should be held, at which an endeavor should be made to agree on nominations for the first council and reeve, to avoid the expense of two elections within four months. Mr. Cook thought that no meeting would be held, and he expressed his opinion as an election, and Mr. P. Guest suggested that they had no hall big enough to accommodate the voters, who included many ladies, who would not come to a meeting, but, on a show of hands, the motion was carried by a large majority, and the chairman called another meeting for Friday, August 30.

NORMAL SCHOOL PLANS ACCEPTED

Continued From Page 1.

end. Designs were called for, to be in by August 1. Immediately on his return from the old country, less than a week ago, Dr. Young took up the matter of having the school considered, and passed upon, and he was able yesterday afternoon to announce the acceptance of Mr. Gilliam's plans. Some excellent designs were received, more than one showing a fine building in outward appearance, but that which has been adopted is undoubtedly the best in its arrangements of the interior to meet the wishes of the department.

An early call will be made by the minister of public works for tenders for the erection of the building, which will be on the site purchased some time ago at the corner of Lansdowne road and Mountain Road. There are seven acres of land in the site, which is an ideal one for the purpose, with a wide view of the city and the sea, and backed by the mountain. The building will front towards the south, and in its planning every modern improvement in institutions of the kind has been included.

BRITAIN'S GRAIN BY PANAMA ROUTE

Continued From Page 1.

"The great advantage Pacific Coast ports have over Montreal or Quebec is that grain could be shipped from here all the year round. In regard to passenger traffic, people living in the western part of the Dominion could go to England much more pleasantly via Vancouver and the Panama canal, thus escaping the long and tiresome train journey. I believe the journey could be made in a single quick time and certainly more cheaply and pleasantly."

"At the present time sailing ships are going from Bristol to California ports. These will be supplanted by fast steam freighters. I believe you have a great harbor here. Necessarily it needs more equipment to meet the development of trade and I am glad to learn that steps are now being taken to fit it up adequately for the great future ahead."

"On my return to Bristol I intend to take up the question of establishing a fast passenger and freight service to this port. I believe it would pay well and no doubt capital will be forthcoming. Millions of British capital are invested in Canada, and the amount will be doubled in the next ten years. From what I have seen of the Dominion, I believe the money so invested will pay big returns."

Mr. Hazegood is a member of a party of prominent financiers who have come to Canada to investigate conditions with a view to investing. They spent some time on Vancouver Island and were much impressed with possibilities there.

FREIGHT RATES IN THE WEST

Continued From Page 1.

and then it will be considered in all its aspects. That the enquiry into western freight rates now in progress will have an important bearing on the question is generally believed. As a matter of fact, the statement was made here today that the government will postpone its definite decision until after October 1, the date fixed by the railway board for the C.P.R. to put in its reply to the findings of the board that the existing rates in the west are too high. The report could not be confirmed.

CAPT. VOSS REPORTED

Former Victoria Navigator of Small Craft Spoken by Japanese Steamer

The steamer Montague brought news that Capt. C. Voss, formerly of Victoria, and his companions who are bound around the world from Yokohama in the 25-foot yacht Sea Queen, have been spoken when 700 miles from the Japanese port by a Japanese steamer.

According to the report the crew of the Sea Queen said that they had encountered a severe gale, but that it had not taken them far out of their course, and on the other hand had pushed the little craft on toward Fuji Island, one of the Marshall group, where they expected to arrive August 26th. The gale had been encountered off the Bonin Islands. Captain Voss, S. A. Vine and F. Stone make up the crew, and the spokesman said that all were well.

Prince Albert in

The steamer Prince Albert of the G. T. P. reached the company's wharf from the north yesterday with a shipment of canned salmon, and left again last night en route to Prince Rupert and way ports.

AT THE BIER OF GENERAL BOOTH

Multitudes Pay Their Last Tribute to Dead Evangelist—German Emperor Sends a Wreath of White Lilies

LONDON, Aug. 23.—So great was the crowd which came today to view the body of the dead general of the Salvation Army, that it has been decided to open the doors of Congress hall at half past five tomorrow morning. In this way many workmen who desire to pay their respects before going to work will be accommodated.

A constant service of song went on throughout the day around the catafalque, cadets of the Salvation Army participating. Fifty bands are to take part in the procession.

Among those who showed their appreciation of the evangelist's life-long efforts to uplift the poor was the German Emperor, who sent a wreath of white lilies forming the imperial initial to be placed on the bier. It was accompanied by his majesty's card surmounted by a crown.

The German embassy also sent a wreath.

DOUKHOBORS AND RESPECT FOR LAW

Continued From Page 1.

production of such documents and things as he may deem requisite to the full investigation of the matter.

Many Complaints

It is not out of place to recall that the Doukhobors were allowed to take up their residence in this province after their leader, Mr. Virgin, had given his word on their behalf that their conduct would be such that no exception could be taken to it; that there would be no repetition in British Columbia of the scenes which for a time in Saskatchewan kept the limelight of publicity on them. Since coming to the province, however, there have been many complaints made by residents in the districts where they have formed their settlements with respect to their conduct, and their disregard for the requirements of the law in the matter of the registration of vital statistics, for instance, while their industry, thrift and sobriety seem to be unquestioned. It has been stated by Mr. Virgin to some of those who have made complaint that his people came here under agreement, but that there were certain concessions allowed them by the Dominion government in matters of conscience. All these statements, of course, are investigated by Mr. Blakeney, but it is unbelievable that any exemption would be made by any government which would allow any citizens to ignore the laws of the province or the Dominion.

The personal tour of the communities, which Mr. Blakeney will make this week, is a considerable task, as it will take considerable time, as it is quite possible that he may not find their members as communicative as could be desired until they are convinced that they must obey his subpoenas and reply to his questions. In any case, it will be a matter of time to observe the general demeanor of the people and the conduct of their settlements.

For Skagway

The steamer Princess May, Capt. McLeod, of the C.P.R., left last night for Skagway with a good complement of passengers, including a number of excursionists. On her southbound trip the steamer will pay a visit to the Taku glacier. From Vancouver the C.P.R. steamer will take a number of voyages bound to Prince Rupert to attend the sale of lots by the British Columbia government on Wednesday next.

Low water in the Skeena will bring steamship navigation on that waterway to a close within the next few days, according to advice received from Prince Rupert. It is expected that when the Fort Simpson and Inlander go to Prince Rupert to be tied up navigation will end on the river for the G.T.P. railroad is nearing Hazelton. Permission has now been granted by the railway commission to allow the trains to Sealey, about three miles distant from Hazelton, and a stage will meet the trains there to convey passengers to Hazelton.

Leebro Expected

The steamer Leebro, which has been away from port for several months carrying building material to Langara Island, where a first order lighthouse is being built, is expected to reach port today.

Diaphone on Lightsip

A diaphone log alarm is being constructed on the Sandheads lightsip, moored at the wharf of the mine and fisheries department. The lightsip formerly sounded a bell during foggy weather.

PERPETUATION OF FORESTS

Continued From Page 1.

burned by forest fires it means a loss of seventy-five millions to the general public. To get good results in forest protection the government must be backed up by public sentiment. The province has adopted a forward policy in this regard, and no doubt the forestry experts from the east will learn something when they come to the convention in Victoria.

Enjoying the Best of Health

"Fruit-a-tives" Cured His Rheumatism

Prof. J. F. Davis

I want to say to the people of Toronto and elsewhere that "Fruit-a-tives" is my only medicine and has been for the last four years. Previous to that, I had been very much troubled with Rheumatism and Kidney Disease, and had taken many remedies as well as employing hot applications of all kinds, etc., without getting satisfactory results.

Noticing the advertisement of "Fruit-a-tives," I adopted this treatment altogether and, as everybody knows, since taking "Fruit-a-tives," I have been enjoying the very best health and find it a pleasure to follow my vocation of Dancing and Department Instruction.

Prof. J. F. Davis, the celebrated teacher of dancing and department instruction in Toronto, is quite frank in stating that "Fruit-a-tives" alone cured him of distressing Rheumatism and Kidney Trouble. 50c a box, \$1 for \$25.00, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Oak Bay

Very desirable new 3-roomed house on Monterey Avenue, close to Brighton Place, for sale. Stands on two large lots. Thoroughly modern and well finished, exceptionally large rooms, open fireplace, garage, close to car and sea. This is one of the best houses in Oak Bay and is a splendid buy, on terms to arrange, at \$11,500.

SHOOTING AFFRAY NEAR BEACON HILL

Louis Felice Probably Fatally
Injured and Charles G.
Spaulding in Jail—Woman
Has Narrow Escape

Alleged to have been jealous because he discovered his wife strolling with a fellow boarder, Louis Felice, in Beacon Hill park last evening shortly before 7 o'clock, Charles A. Spaulding, a recent arrival from Seattle, fired four shots, one of which hit Felice and penetrated the left breast below the heart. Before he could fire other shots Spaulding was caught by Detective Siciliano, of the local plain clothes department, who was nearby. He was taken to the police station in the police motor patrol, which first, however, conveyed Felice to St. Joseph's hospital, Spaulding riding along with his victim. In the ex-

LOUIS FELICE
Shot and probably fatally injured, by Charles A. Spaulding, at Beacon Hill Park last evening

citement which followed the shooting, Mrs. Spaulding ran to her boarding house at 611 Superior street, where she was later apprehended and also taken to the police station, being held as a material witness. Felice was attended to by Dr. Hart, who last night expressed a hope that the injured man might survive, though the wound is a very serious one.

It was not deemed advisable to permit the police to secure a statement from Felice at the hospital, but Spaulding was taken there and identified by Felice as the man who did the shooting. No charge was laid against Spaulding last night pending the outcome of the injuries received by Felice. Should the latter succumb a charge of murder will be laid.

After being put in the patrol wagon Spaulding told the police that he had fired at his wife. He believed that he had hit her and he requested the police, after depositing Felice at the hospital, to go back to the park and look for the woman whom, he believed, he had injured and possibly killed. Mrs. Spaulding, while being taken to the police station from her boarding house, stated that she and Felice were walking along the pathway running from Douglas street easterly, immediately south of Goodacre's lake. They were but a few feet distant from Douglas street when her husband appeared coming towards them. She warned her companion to look out as her husband appeared ready to start a fight. Spaulding, without saying a word, he alleged to have pulled the revolver and commenced shooting.

Recently From Seattle

Spaulding and his wife came to Victoria from Seattle about a month and a half ago, he intending to accept a position as "checker" in the Westholme grill. Owing to the legal entanglements in which the hotel business has been he did not get the position and has been waiting until matters were arranged so that he could start work. For the past few weeks the two have been boarding at a boarding house run by Mr. J. Simpson, 613 Superior street. At the same house are boarding Detective Siciliano, of the local plain clothes force, and his wife and Louis Felice. All were quite friendly, Spaulding being particularly bright and jovial. Yesterday Spaulding and a friend, just

THE SALVOR'S TRIP

The B. C. Salvage Company's steamer *Salvor* sailed last evening for Balboa, Panama, where she will endeavor to save the Pacific Mail liner *Newport*. The operations will be in charge of Captain W. H. Logan, agent at Victoria of the London Salvage Company. This incident possesses unusual interest because it demonstrates anew that the port of Esquimalt is better equipped in point of salvage facilities than any other on the western coast of America, and it is said better than any on the Asiatic coast or that of Australia.

The *Salvor* is under a retainer from the Dominion government, and it is very satisfactory to be able to say that, as soon as the Acting Prime Minister, Mr. G. H. Perley, was advised of the necessity for action by Mr. Frank Shepherd, M. P. for Nanaimo, he telegraphed his assent to the departure of the ship only stipulating that the salvage company should have their auxiliary equipment ready to meet any emergency that may arise. The *Newport* is a ship of United States registry, but she is insured in Lloyd's, which, as every one probably knows, is a British concern. The *Salvor* will therefore be engaged in a work that may save the British insurers a very large sum of money.

The enterprise exhibited by the B. C. Salvage Company, of which the Messrs. Bullen are the principal stockholders, in undertaking so great a contract, more than three thousand miles from home, is not only a splendid advertisement for that company, but also places Esquimalt before the shipping world and the general public in a new and highly gratifying light. Much credit is due Mr. Shepherd for the energetic manner in which he proceeded to secure the assent of the Dominion government to the departure of the *Salvor* from Canadian waters. As soon as he became aware that the services of the vessel were required, he placed himself in communication with Mr. G. H. Perley, the Acting Prime Minister, and secured his assent to the voyage. Mr. Perley's prompt disregard of the restrictions of red-tape exhibited a very gratifying appreciation on his part of the necessities of the case.

In making this reference to the *Salvor's* trip, we would like to say a few words in regard to Captain Logan, who is one of the more recent shipping men to make his home in Victoria, and who has become an enthusiast over the possibilities of this port. In addition to representing the London Salvage Company, Captain Logan is *Salvor's* agent here. He is a shipmaster of wide experience and observation, a man full of energy, and one whose labors on behalf of this city will undoubtedly produce very great and very beneficial results.

THE FLYING LEGION

The Flying Legion is due to arrive in Victoria at noon today. This body is composed of a number of distinguished and influential citizens of the State of California, who will be very welcome to British Columbia's capital city. If the weather is propitious, and for this the prospect seems excellent, the visitors ought to have an exceedingly pleasant time. An attractive and varied programme has been prepared for their entertainment, and the citizens, with their customary hospitality, may be trusted to see that they enjoy themselves and also learn something of the beauty of the city and of the brilliant future awaiting it.

Our visitors are coming at a very interesting epoch in the history of Victoria. They will witness the beginning of what seems likely to be a great change in the character of the city. They will see on every side evidences of growth and expansion, the transition stages from a quiet town to a large and highly prosperous city. We may say to them that Victoria has been a little backward in experiencing the progressive movement, which has been characteristic of the Pacific Coast; but within a year or two a great change has come about, and there seems to be no valid reason why the city should not enjoy a long and uninterrupted period of rapid expansion. Perhaps our visitors may be interested in a brief outline of some of the factors which will combine to assure this progress. Among them are:

A commanding situation in respect to ocean-borne commerce. For this no port on the Pacific Coast is better situated than Victoria, and very few of them are as well situated. The approach from the sea is of the most favorable character. The course from the city docks to

the open sea being absolutely free from obstructions of any kind.

Abundant terminal facilities for ocean-borne traffic will be provided. The Dominion government is about to construct a breakwater that will more than quadruple the accommodations at the Outer Harbor.

Victoria will be within five years the terminus of more than seven hundred miles of railway on Vancouver Island alone, and will have modern car-ferry connections over land-locked waters with all the principal railway lines on the continent. The fact that Victoria is on an island, so far from being a disadvantage to it as a great trade and distributing centre, is an actual benefit, because it makes the port accessible to the largest vessels with a minimum of risk and delay.

Victoria expects shortly to be the terminus of a system of railways which will be connected by an all rail line with the continental systems by means of a series of bridges across narrow channels about midway of the length of Vancouver Island.

The climate of Victoria is remarkable for the absence of extremes of heat and cold. As a point for residence all the year around, it is on a par with any other city, a fact now recognized far and wide. Already thousands of people have made their homes here for this reason alone.

Vancouver Island, with its area of 15,000 square miles, is undoubtedly naturally the richest country of its size in the world. Its resources consist of fertile land, the finest forests of commercial timber in the world, an abundance of excellent coal, very great deposits of iron ore, areas of gold, silver and copper, marble and building stone of the highest class, great coast and river fisheries, an abundance of game, a bewildering variety of scenery from snow-capped, glacier-burdened mountain peaks to beautiful little valleys through which flow limpid streams.

Victorians expect the city to become one of the greatest commercial centres on the Pacific Coast and one of the greatest of all residential points. Everything is rapidly tending in these directions.

TRIBUTES OF RESPECT

The tributes of respect that have been and are being paid to the late General Booth of the Salvation Army testify in the most eloquent way to the esteem in which that noble Christian was held the world over. Those who have joined in them have honored themselves at least equally with him to whom the respect has been shown. Scarcely greater recognition could have been given him if he had been among the most eminent of the world's rulers, and even in the case of any of them the appreciation of personal worth and meritorious deeds could not have been more profound. As Queen Alexandra said in her message of sympathy, his work will live forever. The life of General Booth has been and will continue to be an inspiration to thousands. He was one of the world's greatest men.

LAURIER AND THE NAVY

The evening paper is very greatly in error in saying: "The Colonist thinks that because Sir Wilfrid Laurier is a member of the Imperial Privy Council he is in duty bound to give Sir Hon. R. L. Borden the benefit of his counsel in the matter of a Canadian navy." This is exactly what The Colonist did not say, and which it was at pains to avoid saying. If our contemporary will refer again to the article, which it has misrepresented, it will see that the position taken by The Colonist was that if Mr. Borden should represent to the Liberal leader that he desired to consult with him in regard to an emergency contribution, it was difficult to see how he could refuse to comply with the invitation. In regard to a Canadian navy we expressly said that we could see no apparent reason why the customary parliamentary practice should not be followed. Neither did we say that Sir Wilfrid Laurier had any duty devolving upon him in any respect because he is a member of the Imperial Privy Council. What we had in mind was the fact that he is a member of what is called the Kings' Privy Council for Canada, of which, we may remind our contemporary, Mr. William Templeman is also a member. May we venture to suggest that, whether or not it may be advisable or possible to take the navy out of politics, it ought not to be impossible to take it out of the sphere of misrepresentation?

TODAY'S FUNCTION

There will be a luncheon to the members of the Flying Legion at the Empress today at 1:30 and a reception in the evening in the Parliament Building at 8:30.

In view of the fact that the gentlemen composing the visiting organization are as distinguished a group as ever left California on a tour it is very desirable that the business men of the city should make an effort to be present at the luncheon and testify by their presence their appreciation of the honor conferred upon Victoria by its visitors. It is also greatly to be hoped that there will be a large gathering of

ladies and gentlemen at the reception tendered to the visitors by the provincial government. To avoid any misunderstanding we may add that no invitations to the reception have been issued, but that all citizens are free to attend.

The evening paper says in a headline that the National Transcontinental will be completed through to "California" in time to handle the full shipments of grain. This will do to put side by side with The Colonist's statement yesterday morning that yesterday was the 25th anniversary of the passing of the "University Bill." Cochrane was meant in the one case, and Uniformity in the other.

The announcement that the track walkers of the Intercolonial railway are on strike reminds us of the paradox that while the Industrial Disputes Investigation act applies to every other railway in Canada it has no application on the Intercolonial. It is certainly peculiar that a piece of legislation of that character, which has for its object investigation before a strike is allowed, should not have effect upon a government-owned railway.

The Duke of Sutherland is engaged in a project, which is likely to prove of the highest benefit to many excellent people from the British Isles and of great importance to Canada. To bring a large number of people to the Dominion and to place them on ready-made farms under favorable conditions is work of the greatest value. How far His Grace's efforts will extend we are not just aware, but the statements regarding his plans that have been published indicate that their scope will be very wide.

A worthy professor wants the English standard of pronunciation of the English language preserved. This is quite right, but will he kindly tell us what is the English standard? When the present king was in Victoria some of our important people were rather indignant because "he talked like a Canadian," as they put it. There are as many ways of sounding syllables ending in "ough," how, for example, ought "ate" to be pronounced? Scores of educated English people pronounce it "et." But there might well be a body in the British Empire corresponding to L'Académie Française, that would fix a standard both of spelling and pronunciation.

A volume admirably illustrated and containing very interesting and accurate information of different phases of life in the Dominion is the 1912 edition of *Canada Today*. It contains 238 pages and into these have been crowded articles, carefully compiled, and all presented in such a manner as to immediately attract attention. It is a book which will appeal to the intending immigrant, to the capitalist looking for investments, to the prospector and the sportsman, and also to the lover of beautiful and varied scenery. In fact one and all would find matters of more than ordinary interest in the volume which is a production that reflects great credit on the publishers of Canada.

Liberal newspapers of Canada are making a great display of a speech by Congressman Underwood, in which the Democratic leader in the House of Representatives dwells upon the various items of tariff taxation which the American consumer has to pay by reason of the protective tariff. But they are apparently not aware that Mr. Underwood has been guilty of a grave piece of plagiarism. The original author of this fiction—for it is a fiction in so great a country as the United States, with its enormous domestic production of all the necessities of life and to a lesser degree also a fiction in Canada—was the late G. E. Casey, in his life time Liberal M. P. for East Elgin. The story has done yeoman's service in many Liberal campaign pamphlets, but it has apparently had no effect upon the electors, or for that matter upon the Liberal leaders, who for sixteen long years proved that their boasts of tariff reduction were a sham and a delusion.

LETTERS TO THE EDITOR

Vancouver Cadets

Sir—As an old military man, and one who held an officer's commission from Queen Victoria for many years, I cannot help but be proud of the military fame the high school cadets are obtaining for Canada in Australia. There is, however, one item we must not lose sight of, and I am sure Capt. Davy and the school trustees would endorse this statement, that the success of the cadets is in no small measure due to the interest taken in them by their devoted drill instructor—the able sergeant-major. I know the boys themselves both love and appreciate this generous, kindly and yet strict instructor.

FRANK RICHARDS, J. P.

Vancouver, B. C., August 23.

Kaiser's Indisposition

CASSEL HESSO, Nassau, Aug. 23.—The German emperor has contracted a slight cold. Owing to this indisposition, the proposed attendance of his majesty at the Court theatre has been cancelled.

SHOOTING AFFRAY
NEAR BEACON HILL

Continued on Page 4, Col. 4.

over from Seattle, went down town. The former returning about 8:30 o'clock. In the meantime Mrs. Siciliano, Mrs. Spaulding and Felice went out walking, the first named returning home, leaving the other two at the park. Spaulding, when he got home and discovered that his wife was not in the house, evidently remembering that she had told him of her intention to go for a stroll in the park, he started out after her. He went but a block from the house when he returned and running a minute or two when he came downstairs and rushing through the house started again towards the park.

Followed by Detective

Detective Siciliano, who had come home immediately after Spaulding, noticed the latter's apparent excitement, and, assuming that Spaulding was angry at his wife's absence, followed the man towards the park. Spaulding, as soon as he got to the park, ran across Douglas street to the entrance to the path leading past the lake, where he discovered Mrs. Felice Spaulding. Detective Siciliano lost sight of him as he disappeared behind the trees bordering the path, but hearing the shots, ran forward in time to see Spaulding standing with the revolver in his hand while he was bleeding from the wound in his side. Detective Siciliano seized hold of Spaulding, at the same time instructing a passer-by to telephone for the police patrol, which soon arrived with Constables Sutton and Roberts. Spaulding was placed therein, the former being rushed to the hospital and Spaulding to the police station. Half an hour later Mrs. Spaulding was taken in charge at her dwelling house and also taken to police headquarters.

The revolver, a .38 calibre, six-chambered weapon of the American build-type, was fully loaded but four of the shells had been discharged.

Louis Felice, a 36-year-old, six years of age and an industrious young man, who until about ten days ago was engaged on construction work in the city. He was enjoying a holiday, a guest of Detective and Mrs. Siciliano. He has been a resident of Victoria for some years and was highly thought of by his employers.

Spaulding, prior to his arrival here with his wife, was a resident of Seattle for some years, having been employed at the Hotel Inland for three years and a half, and later at the Arctic club, the headquarters of the Arctic Brotherhood. Spaulding will be arraigned in the police court this morning before Magistrate Macdonald, the preliminary hearing will be adjourned. Last night, he was attempting to get into touch with Mr. George Powell, of Vancouver, who was in the city yesterday, and with whom he had some legal business yesterday afternoon.

NEWS OF THE CITY

Heavy Travel—Travel from sound and mainland points was yesterday again exceptionally heavy. This year, to a greater extent than ever before, the fact that Victoria is the mecca of large numbers of people for week-end outings.

Concert at Empress—All members of the Arion club are reminded and especially requested to be at the Empress hotel tomorrow evening at a quarter to nine, to take part in the programme arranged for the entertainment of the members of the Flying Legion. The club will sing from the north end of the rotunda, where the orchestra plays and members are asked to congregate there.

For Strathcona Park—Mr. W. W. Foster, deputy minister of public works, will leave today for Strathcona park to meet the members of the Arion club who are camping there and secure from some of the botanical members of the party hints on the preservation and development of the flora of the district. He will at the same time inspect road work and other public undertakings in the neighborhood.

Inoculation for Typhoid—The provincial board of health has issued a bulletin on the value of inoculation as a protection against typhoid fever. The vaccine may be injected by a doctor or by a trained nurse and the injections are sufficient, at intervals of ten days. Dr. Bapty, in the bulletin, states that after the first injection there may be a slight feeling of illness and headache, but sufficient to cause a man to abstain from work, while the subsequent injections cause no discomfort. Statistics, he adds, have shown that of those properly inoculated where it has been tried practically none have had typhoid fever in a year, and protection is probably afforded for a much longer period.

SEA WALL PARAPET

Work as Suggested by City Engineer Would Cost About Twelve Thousand Dollars

On the recommendation of City Engineer Rust, bids will be called for the erection of a concrete parapet along the top of the sea wall at Ross Bay, estimated at \$12,000 and \$13,000 or about \$25,000. This amount does not include the cost of ornamental lamp posts or wiring therefor. The engineer's sketch of the proposed parapet was approved by the city committee of the city council yesterday afternoon.

The engineer stated that the appropriation for the sea wall was \$160,000 and the expenditures to date, including the discount on the debentures, had been \$120,000, leaving a balance of \$40,000. After providing for the parapet there would be left \$44,000, an amount insufficient for the proposed paving of the roadway at the rear of the wall, a work which would cost approximately \$40,000.

Aldermen Anderson and Baker urged that the pavement be first completed and if possible devote the balance of the loan to this work and allow the construction of the parapet to stand over until next year. The engineer, however, suggested that the amount now left to the credit of the

loan be devoted to sewer purposes and even when Aldermen Gilmour and Denison that money voted for any purpose could not be used for another. Alderman Beard is still in doubt as to whether the money could be used for sewer purposes. Alderman Beard failed to see the necessity of a parapet on the wall such as proposed, especially at this time when funds are urgently required for more necessary work.

TRIBUTES TO MEMORY

Reference to Passing of Salvation Army Leader in Many Local Churches Tomorrow

In many of the city churches reference will be made tomorrow to the lamented death of General Booth, thus emphasizing the fact that the great work which he did for the cause of suffering humanity has won for him the respect and admiration of all shades of religious opinion. At the morning service of St. Andrew's Presbyterian church the pastor, Rev. W. Leslie Clay, will take as the subject of his sermon, "The Death of General Booth." In the evening at the first Baptist church, Rev. J. B. Warkentin will conduct a special service, taking as his text "General Booth—the Friend of the Poor." A memorial service will also be held on Sunday evening at Emmanuel Baptist church when Rev. William Stevenson will preach on "General Booth and his work." At the James Bay Methodist church, the pastor, Rev. Theo. Robson will take as the text of his evening sermon, "Lessons from the Life of General Booth." The service will be held at 7:30 p. m. in the Empress theatre, which will be of the most moving and impressive nature. General Colwell will be in charge, and will probably share in the Army's demonstration of love and loyalty to his late chief.

In Memoriam

Upon their general dead the army games, And silent falls the instant tear, And mingled notes ring on the ear Of grief and praise.

The world is proud to tell of his life's story—Of sacrifice and noble love, That speaks to us of God above, Enthroned in glory.

Proud of the hosts which he commanded ever, With patience, and with courage true, Beneath the waving red and blue Defeated never.

'Twill be our joy to keep his tombstone vernal, While angels robed in shining white Shall weave for him a chapter bright In Heav'n's eternal.

CHARLOTTE ANDERSON, Victoria, 1912.

SOCIAL AND PERSONAL

The Misses Turner, of Calgary, have arrived at the Empress hotel. They are Mr. Frank Pixley, of New York, is amongst the guests at the Empress.

Mr. Donald Hardner, of Liverpool, England, is at the Empress. Mr. P. J. Kilward of Kobe, Japan, is a guest at the Empress. Mr. and Mrs. M. H. Sanders, of Winnipeg, are at the Empress. Mr. Gordon Campbell, of Vancouver, is in town.

Mr. and Mrs. W. T. Williams have removed from Linden avenue to Foul Bay road, near the station.

Miss May Goodfield and Mrs. W. Robertson, leave Monday for a visit to Seattle.

Miss Kenny, secretary to the deputy minister of public works, has returned from a vacation trip.

Dr. W. H. Egan, one of the leading practitioners of Halifax, N. S., is at the Empress.

Mr. and Mrs. R. B. Shepherd and Miss Michelson, of Nassau, the Bahamas, are among the late arrivals at the Empress.

Mrs. Grace Denison of Toronto, who is better known as "Lady Gay," of Toronto Saturday Night, left yesterday for the east, after a trip to Alaska.

Mrs. J. A. Johnson of Portland, Ore., and her family, are visiting Mrs. Frank J. Smith of 2411 Work street, for a few weeks.

Mrs. J. Miller, Esquimalt, leaves tomorrow night for a month's visit to Kamloops, the guest of Mrs. J. F. Smith.

Miss Lillian Grant, accompanied by Miss Kathleen Dowdall, motored from Cumberland last week, after spending a vacation at Mrs. Grant's summer cottage, "Jolly Cove," Roys beach.

Mrs. and Mrs. Spain have left Byron street, Oak Bay, taken up their residence at 332 Vancouver street, off Cook street.

BANK OF NOVA SCOTIA

Visit of Eastern Officials May Mean Extension of Enterprise in Province

VANCOUVER, B. C., Aug. 23.—Mr. H. A. Richardson, Toronto, general manager of the Bank of Nova Scotia, and Mr. G. Hunt, manager of the Montreal branch of that bank, are in Vancouver and will remain in British Columbia ten days.

This bank, which recently increased its capitalization by a million dollars, has at the present time only three branches in the province, one in Vancouver and one at Victoria, and the presence of these two eastern officials here at this time is taken as an indication that active steps are anticipated in the very near future for the organization of additional branches in British Columbia.

Mr. Richardson expressed himself as struck with the wonderfully extensive industrial and business possibilities of the country, but he declined to authorize a statement that his organization contemplated the immediate inauguration of new branches.

SEATTLE HARBOR WORKS

Over \$3,000,000 to Be Spent on Improvements to Puget Sound Port

SEATTLE, Wash., Aug. 23.—The Seattle port commission today signed a contract with the Pacific Terminal Company, a New York corporation, providing for harbor improvements to be made here at a cost of \$3,000,000. A large block of Harbor Island property is leased to the New York concern which agrees to make improvements similar to the Bush terminal in New York, on the terms of the lease is thirty years. The contract was signed by Commissioners Chittenden and Ronsberg, a majority of the commission.

VISITS INDUSTRIAL CENTRES

King's Policy Which Has Extended Approval Will Probably Be Extended

LONDON, Aug. 23.—The King's policy of visiting industrial centres and of meeting with such warm approval, will, it is probable, be extended during the coming winter. His Majesty's desire to become acquainted first hand as to the indoor preoccupations of the various industries of the country will attend typical meetings of the Royal Society, the Royal Geographical Society, and other learned bodies, and probably he will also pay visits to some educational centres, including those in which evening classes are being held, and probably he will be sympathetic and other displays.

A Decreasing Population

Much comment is being made in these days on the decreasing population of Prince Edward Island. The little province itself is troubled about the loss of representation in the federal parliament and efforts are being made to promote immigration from Great Britain. Articles are being written advising that people to stay at home and settling forth the advantages of the island as a place in which to spend a lifetime. These are many. No man who has a farm and knows how to work can fail to make a comfortable living on a small piece of his family. He can give his boys and girls a good education and send them out into the world well equipped for the battle of life. In few countries is there such universal well-being. The farmers' houses are comfortable. The country is rich in scenery and offers opportunity for social intercourse and for mutual improvement. The standard of morality is high and the people are intelligent. The climate in summer and early autumn is delightful. The winter, though severe, is not so severe. The springs and falls are unpleasant. It is true, but not more so than those of other parts of the Atlantic coast. Business is steady and the price of produce good. In no part of the world are there to be found so many of the conditions of a peaceful life. The summer visitor who spends a few weeks in one of the few farmhouses and sees the rosy-cheeked children, the stalwart young men and the handsome, wholesome girls who with the still strong father and the busy mother form the household, will wonder why anyone should want to go away. In the fields the grain is ripening and vegetables for winter use are growing. Well-bred cattle feed in green pastures and handsome horses are at work on the roads. It is a pleasure to be here. The summer visitor who spends a few weeks in one of the few farmhouses and sees the rosy-cheeked children, the stalwart young men and the handsome, wholesome girls who with the still strong father and the busy mother form the household, will wonder why anyone should want to go away. In the fields the grain is ripening and vegetables for winter use are growing. Well-bred cattle feed in green pastures and handsome horses are at work on the roads. It is a pleasure to be here.

Everywhere the sea or the bay is near with its opportunities for sea-bathing and boats and steamers ply backwards and forwards with their load of merry excursionists. And yet the mother will tell with a sigh that her son leaves for college as soon as the summer work is over, and perhaps that her daughter has accepted a situation as teacher or business woman on the prairie or at the Pacific coast. Once gone, she knows too well they are not likely to return except as victors. The advantages of life at home, the certainty of a competency in old age and of constant and profitable employment, the health and strength that are advanced in life. The blood of the old sea kings, of Scottish ancestors or of the English adventurers who have planted the flag in every corner of the world, is strong in their veins. Risk and uncertainty are set at naught and they set out to conquer, as they think, on a broader and fuller life. Canada, and especially western Canada, is greatly indebted to the sons and daughters of the beautiful little province. Their training on the farm has taught them patience, hardihood, and resourcefulness. They have learned to leave home with a strong moral sense and fixed principles. They make excellent and, for the most part, successful pioneers. Education, in our own province, owes much to Islanders, and they are to be found in prominent positions in almost every walk of life. It is perfectly true that to gain these many have endured hardships and privations unthought of at home. If some have failed, the number is not so large as to discourage others from setting out. No better service is being done for Canada as a whole than is being accomplished in Prince Edward Island homes.

NOTE AND COMMENT

Colonel Alexander Roy, A. D. C. M. V. O., who is to succeed Colonel Wadmore as district commandant in this city, is one of the best soldiers in Canada, and will undoubtedly be most popular in this district. His record in early life, he joined the 6th regiment (the Mount Royal Rifles) in 1880, and soon decided to make his future career a military one. This was accentuated by his experience in the Northwest rebellion of 1885, when he served with the 6th regiment, as a captain, and was present at the engagement of Frenchman's Butte and assisted in the capture of the great Indian chief, Big Bear. In 1897 he was appointed district officer commanding of No. 6 district. He was made chief staff officer of the Quebec command in 1908, and has since been officer commanding the district. He was in charge of the dismounted troops of the military contingent which represented Canada at the coronation of King George V. and a member of the Royal Victorian order. His selection for this command is a signal proof of the ability of Hon. Sam Hughes to pick out the right men for the job. Colonel Roy is an excellent soldier, a good officer, and a fine citizen. He is 34 years of age and unmarried.

The Ottawa Journal gives currency to a statement about the public records of Canada, which passes comprehension. It states that when the present government undertook to discuss the claims of Quebec to the district of Ungava, Premier Gouin wrote Premier Borden, asking that Ungava should be added to the province at the same time as Keewatin was being added to Manitoba. He referred to a resolution of the assembly in 1905, conferences with the Ottawa government at which the matter was fully gone into, and added that at dissolution in the summer of 1911 the matter had been substantially agreed upon.

As was quite natural, Premier Borden looked up the files in the privy council office to read over the correspondence and make himself familiar with the negotiations that had been carried on. Since then, nothing could be found, and Mr. Borden was accordingly obliged in his answer to Premier Gouin to insert the following:

"In the meantime, perhaps you will be good enough to forward me the documents alluded to in the third paragraph of your letter. On inquiry in the privy council office, I am informed that no documents or correspondence are to be found."

It would be extremely interesting to know what became of the documents mentioned. No one who knows Sir Wilfrid Laurier will believe for a minute that he would be a party to the transfer of any public documents from their rightful department, and it looks as if a careful search might be made in order to ascertain what has become of the record.

Toronto's Exhibition

TORONTO, Ont., Aug. 23.—Work is being carried on at the Dominion government buildings at the Canadian National exhibition, which was to have been completed for Monday's opening. Saskatchewan has an exhibit which will attract much attention. It is a miniature Niagara Falls, which, while instead of water will come over the precipice. The design conveys the idea that what is to the west what Niagara is to the east. In the Dominion government exhibit, a grain elevator loading a ship will be seen. All the provinces make grain a prominent feature of their displays and Manitoba has some designs worked out with this year's yield.

Pool Champion Here

There is in Victoria at present the Canadian pool champion, Mr. Edward Doug, of Hamilton, Ont., who will be seen all next week in competition with Victoria players of the cue at the Broad street billiard parlors, in exhibition matches, playing in the afternoon at 2:30 and in the evening at 8. Mr. Doug has made a record for his credit. In St. Paul and Minneapolis last spring he made two runs of 110 and 115 at line-up pool, which he considers the most difficult style. In a match game at Spokane in May he broke out records for the rest of the world by making a run of 134, equalled on a 4 by 9 table. In a practice game at the Broad street parlors he made a run of 17 balls, which breaks the high run record of Victoria. He is going to try to make a run of 100. "But the game at Spokane was a high run was 129, made at San Francisco three years ago."

Woman's Awful Crime

NEW YORK, Aug. 2.—Dependent because of illness and the fact that one of her seven children was a sufferer from infantile paralysis, Mrs. Louis Nunlman, 35 years old, wife of a wheelwright, killed her crippled boy and tried to kill herself and her four weeks old baby by gas asphyxiation last night. Neighbors discovered the mother's act in time to save her life and that of the baby, but the crippled boy, a lad of four, was taken from her arms dead.

Special Reserve Regiment

Owing to the special character of its constitution, King Edward's Horse (the King's Overseas Force) has been removed from the Territorial Force and made into a Special Reserve regiment. It will be composed of men who have mounted regiments belonging to this special branch of the service.

Miss Elsie Cowley, of Winnipeg

Miss Elsie Cowley, of Winnipeg, has arrived in town on a visit to her father, Rev. Canon Cowley, of the York Bay road. Mr. H. B. Brownell, the assistant general western agent of the Merchants Mutual line of inland steamships, is in Victoria on a holiday trip. He has headquarters in Winnipeg, but he is already so much impressed with the possibilities of the city that he may come here as the representative of the company which will do business between Victoria and New York, via the Panama canal.

ASSERTS CLAIMS ARE SIMPLY A HOLD-UP

Alderman Stewart So Dubs
Action of Owners Who Seek
Compensation From City for
Land Expropriated

Strong objection was made by Alderman Stewart, chairman of the streets committee of the city council, at yesterday's meeting of the committee, when a request from some of the property owners on Finlayson street that that street should be opened up from Quadra street to Douglas street was considered. The owners pointed out the necessity of the street extension to permit development of the section of the city at present cut off by the brickyard section from the street railway line on Douglas street. Some of the owners are willing to give their property at the assessed value, but they urge that the city expropriate the right-of-way through the brickyard property.

Alderman Porter, who, with Alderman Gleason, was sometime ago appointed to interview the owners, stated that some were willing to accept the assessor's estimate as the value of their property to be taken for street purposes, but that none favored contributing the land free of cost.

Alderman Stewart declared that unless the owners would give the property required free of cost he for one would refuse to approve the expenditure by the city of a cent.

Alderman Porter believed the city has gone as far as the matter of expropriations for street widening purposes as it should and Alderman O'Neil declared the scheme would simply mean the city would have to pay to open up a street for the advantage of owners who desire to subdivide their property for sale.

Alderman Gleason pointed to the fact that the owners benefited would be assessed for the improvement and while the city would have to pay the money in the first instance, it would get it back in annual payments. The cost of the work could be distributed over ten years instead of the usual 50 if the council saw fit.

Despite Alderman Stewart's objections the scheme of street extension will be further considered. Alderman Porter, Gleason and Humber being appointed to again interview the owners.

"Daylight robbery" was the term ascribed by Alderman Stewart to some of the claims put in by owners on Fairfield road between Dallas road and Foul Bay road which the council last year decided to widen to a uniform width of 60 feet. Two of the owners have filed large claims, one of them asking \$10,000 for the line of trees which would be removed should the roadway be widened. The B. C. Electric company has notified the city of its intention to lay double tracks along that portion of the thoroughfare and urging that the street be widened.

Alderman Cuthbert urged that the work be proceeded with, claiming that the council last year approved of the scheme but the plans prepared in the city engineer's office had been wrongly drawn with the result that another by-law had to be passed this year. The owners had been led to expect the improvement would be proceeded with. As for the city employees who had made the mistake in the plans and thus held up the prosecution of the work last year he should be dismissed.

He is, Alderman Cuthbert asserted, still in the employ of the city. Alderman Stewart declared that some of the claims put in by owners were simply absurd. They should be given 14 days within which to state if they are willing to accept the assessor's estimate of value of the land taken or if not the exact amount and then the council would be in a position to state whether the work should be proceeded with or not.

Alderman Baker believed the work should be proceeded with but he objects to any "hold-up" of the city by owners.

The notices to the owners will be sent out, but even if the work be proceeded with there is little chance that it will be carried through this year if the city has to wait until the tramway company installs its double track.

COMING EVENTS

Royal Jubilee Hospital—Tomorrow, Sunday, there will be a service of holy communion in the Memorial chapel at 8 a.m. Residents of the district, as also the patients, nurses and staff are invited.

Young People's Night—It will be young people's night at the First Baptist church tomorrow evening. The pastor, J. B. Warrick, B.A., will take as his topic, "General Booth, the Father of the Poor." There will be special music.

Concert at Gorge Park—Another of the series of sacred concerts organized by Rev. S. Lindridge will be held at the Gorge park on Sunday evening next at 8.15. The orchestra, under the leadership of Benedict Bantley, has prepared an excellent programme, and Mrs. Marie Burnett has again been engaged to sing. Full particulars of the programme will be published later.

Canadian Disputes Act

LONDON, Aug. 23.—Sir George Askwith sailed for Quebec yesterday by request of government to investigate into the Canadian disputes law. He is accompanied by Lady Askwith and Hon. Thos. Bosworth.

The Efficiency of Your Engine

Depends largely on its lubrication. A dash of oil, just any oil, is not all that is necessary to keep things going smoothly. Whether it be a gas engine, a dynamo, an auto, or any other type of engine, there's only one oil which will get the best result from it. It is not always a matter of price either. You may be paying as much for the wrong oil as you would for the right oil—the oil that would mean 100 per cent. efficiency from your engine. Let us advise you on this Oil Question. We are Oil Experts and keep the right brand for each particular purpose.

NEWS OF THE CITY

Won at Vancouver—Miss Boorman, supervisor of needlework under the Victoria school board, who has just returned from Vancouver, announces that the exhibit of needlework by the South Park school won the diploma at the exhibition. Five of the six girls who individually competed for prizes received firsts.

Seeks Improvements—Improvements to Dallas road between Cook street and Moss street are requested of the city by Messrs. Grant & Lineham, who ask that the roadway which is at present in bad condition be widened and that a permanent walk be constructed on the north side of the roadway between Cook and Chester streets. The engineer will report to the city council on the cost of the work.

Refers Request to City—Reverend Oliver, of the municipality of Oak Bay, has referred to the city council the application of the Victoria Country club for permission to hold a race meet at the exhibition grounds next month. He states that Oak Bay has already taken the stand that as the grounds belong to the city Oak Bay cannot let any such privilege until the city expresses its approval. The matter will be considered at Monday night's meeting of the council.

School Exhibit—The school board has a general exhibit at the Canadian National Exhibition at Toronto, representing all the schools, including domestic science, needlework, drawing, writing and similar classes of school study. This exhibit is graded according to classes, and is thoroughly comprehensive. If it should be back in time, the display will be placed on view at the provincial exhibition here at the end of next month.

Building Permits—Permits were issued yesterday by the building inspector to Mr. Alexander Ingram, for a dwelling to be erected on George street to cost \$2500; to Mr. J. Waxstock, two dwellings on Princess street, \$6,000; to Messrs. Cameron, Lumber, Langley, drying kiln, Garbally road, \$1,500; to Messrs. Victoria Building company, dwelling on Wildwood street, \$2,400 to Mr. Calvin Moore, dwelling on Bank street, \$1,500; to Mr. C. Barton, dwelling on Chalmers street, \$1,500; to William Drysdale, moulding rack on North Park street, \$1,000; to Mr. W. Merrill, stable on Belmont street, \$200.

Promises Action—Unless the city confines the street widening work on Fort street to the width proposed under the bylaw passed authorizing the work, at least one owner will take action against the corporation for trespass. Mr. Thornton Fell, solicitor for Mrs. Dodds, owner of lots 1096 and 1097, block 18, has notified the city that city workmen engaged in moving back fences, etc., on that portion of the thoroughfare in front of his client's lots are appropriating nine feet of her property, though the bylaw calls for but eight feet. Unless the city stands within its rights, Mr. Fell threatens his client will institute an action. The city solicitor and city engineer will investigate the complaint.

Seek Delay in Work—The suggestion made by Hon. Thomas Taylor, minister of public works, to city engineer Reid, that the asphalt paving on Line street be delayed, as that thoroughfare will probably be used later for trackage for the railways operating upon Vancouver Island with terminals at the Songhees Indian reserve, has been met with a necessary delay to be torn up again for the laying of tracks, was before the streets committee of the city council yesterday afternoon and left in the hands of the engineer for further report. The engineer, in response to the minister's communication, requested a plan of the proposed trackage, suggesting that if the plan proposed would necessitate the tearing up of much of the pavement it would be better to delay the work.

Sending Photographs—Hon. J. H. Turner, agent-general in London, for British Columbia, is sending to the Vancouver Island Development League a set of photographs of the offices in Finabury, Croydon, which should prove of exceptional interest to Canadians who have yet to pay their first visit to London. Mr. Turner in his letter adds that even at this, the slack season, numbers of good class settlers are leaving England for Vancouver Island and other parts of the province. He also makes a request for all the literature the league can send him, especially for the Sport bulletin. Inquiries yesterday were received from Morden and Regina, on the prairie, from Vernon and the United Kingdom, and several residents on the Island wish information sent to friends elsewhere.

Visiting Preachers—Dr. Edward Munson Hill, of Montreal, the well known scholar and preacher, will arrive this afternoon, and will preach at the services at the First Congregational church on Sunday. He is one of the leading Congregationalists in Canada. He taught for some years in the high schools and colleges and in 1882 became pastor of Calvary church, Montreal, where he remained till 1901. Since that time he has been president of the Congregational College of Canada, and served a term as chairman of the Congregational Union in 1898. He is now, as senior president of the affiliated theological colleges of Montreal, acting as their dean. Dr. McCrossan, of Minneapolis, will preach at the First Presbyterian church on Sunday. Tomorrow morning at Christ Church Cathedral, Rev. Dr. J. W. Clappett will be the preacher.

Will Approve Work—While the city council will undertake to carry out street improvements on Hillside avenue between Cedar Hill road and the city limits, works urged by property owners in Oaklands, there is little likelihood that the work will be completed or even commenced this year. At a recent meeting of the Oaklands owners a resolution was passed urging upon the city the necessity of proceeding with the work as provided for under a bylaw passed early in the year, being a pavement fifty-one feet in width with four foot sidewalks and six foot sidewalks on each side. At yesterday afternoon's meeting of the streets committee it was decided to recommend to the city council that the work be proceeded with, but City Engineer Reid made it plain that no start on the work could be made this year.

Salary Increase—The operators of the Canadian Pacific Railway Telegraphs in Victoria, as all over the system, are rejoicing in the news that an agreement has been signed by which they each get a raise of five dollars a month, dating back from July 1. The arrangement was negotiated through the Commercial Telegraphers' Union of America, and will affect about one thousand men.

Club's Officers—The Progressive Club has incorporated, the first directors being Messrs. Walter W. Mac, of Victoria, British Columbia; John Mowat, of Victoria, British Columbia; Lauchlin D. McLean, of Victoria, British Columbia; Herbert N. Wayne, of Victoria, British Columbia; James L. Fitzmaurice, of Victoria, British Columbia, who shall hold office until the first annual meeting of the society.

Assist at Fair—At the meeting of the W. C. T. U. just held, the principal item of business discussed was in connection with the preparations for the agricultural fair which is being held next month at the exhibition grounds, and at which the organization has usually undertaken catering. No definite plans, however, were formulated, decision being deferred until the next meeting on September 4.

School Attendance—When the public schools of the city re-open on Monday there will be a large increase in the general attendance, over 500 new pupils having been issued since the schools closed for the summer holidays. The increased attendance is distributed as follows: Boys' Central, 32; Girls' Central, 34; North Ward, 42; South Park, 16; George Jay, 26; Sir James Douglas, 41; Victoria West, 19; Kingston street, 18; Bank street, 17; Spring Ridge, 21; Hillside, 15; Rock Bay, 4; and Flagstaff (Chinese), 8.

Amateur Dramatic Society—The Western Star Amateur Dramatic Society entertained their many friends at an invitation dance in Sempie's Hall, Langford street, on Thursday evening. A very enjoyable time was spent by everyone. Dancing started at 9 o'clock and lasted until past midnight. Supper was served at 11. The tables were decorated in pale blue and gold, the colors of the society. Much praise must be given the various committees for the way in which everything was so successfully carried out.

The Garter Mission—The announcement that H. R. H. Prince Arthur of Connaught has been delegated by the King to bestow the Order of the Garter upon the new Emperor of Japan, places the son of the Governor-General in a position unique in itself. He is the first member of the British royal family who has presented the insignia of this most distinguished order to two successive monarchs of a friendly nation. It is only three or four years since His Royal Highness went to Japan to perform a similar mission for the emperor whose death Japan now laments.

With Naval Honors—With impressive naval rites the remains of the late Mr. Frank Alexander Jackson, of H. M. S. Algerine, were interred yesterday morning in the naval cemetery at Esquimalt. The funeral took place at 10:30 from the naval hospital and was largely attended. Captain Brooker and all the officers of the Algerine were present, as well as a great many of the men, and also a number of the crew of the Rainbow and soldiers from Work Point barracks. Eight of the seamen of the Algerine acted as pallbearers while the gun carriage was drawn by members of the crew of the Rainbow. The coffin was covered with the Union Jack, on which lay the kit of the deceased, and several beautiful floral tributes. In the absence of the naval chaplain, Rev. W. Baugh Allen, services were read by Rev. Archdeacon Scriven, after which the sailors of the Algerine fired the customary three volleys over their comrade's grave. Among the floral tributes were a large wreath from the captain and officers of H. M. S. Algerine and several from the members of the deceased, the chief and petty officers and the ship's company, testifying to the great esteem in which the deceased was held by all who knew him.

A. O. F. Convention—The thirty-ninth annual convention of Columbia District O. F. comprising the courts of the order in British Columbia, will convene at New Westminster on the 25th, 27th, and 28th inst. under the chairmanship of Bro. W. E. Fullerton, District Chief Ranger. The business to be brought before the delegates is of an important nature. That of organization and finance will occupy the attention of the delegates the greater part of the session. The courts in New Westminster District have made ample arrangements for the reception and entertainment of the delegates. At the opening of the convention Acting Mayor A. W. Gray, on behalf of the city council, will welcome the delegates. On Monday evening the delegates will be the guests of Court East Burnaby, at a social gathering, and if time permits, various excursions on the river and other places will be taken in. The following officers and delegates will represent the city and district courts: District Chief Ranger, W. F. Fullerton; District Treasurer, J. T. Tice; Court Vancouver, J. J. Wilson; H. A. Adams; Court Northern Light, N. T. Lee; J. Williams; Court Victoria, A. Manson; J. Doble; Court Camosun, Jas. Tague; Court Westside, Court Maple Leaf, Miss Graham; Mrs. Nicholas; Court Douglas, W. A. Clark.

THE WEATHER

Meteorological Office, Victoria, B. C., at 8 p.m., August 23rd, 1912.

SYNOPSIS: Pressure conditions are low throughout this western part of the continent from the Pacific to the lake. With the exception of showers at Prince Rupert and Barkerville the weather on the Pacific coast has been hot with high temperatures between the American ranges, reaching 100 and 110 deg. F. In the prairie provinces heavy rain has fallen at Edmonton and Winnipeg and showers at Prince Albert and Minnedosa.

THE GREAT AWAKENING

With the opening of the Panama Canal dawn the awakening of the last great West.

The reorganization of the world's trade routes and the cutting in two of freight rates will bring the whole of our enormous wheat traffic rushing to the West Coast.

It means that the vast resources in grain and minerals of this great coastal belt will commence their era of activity, and in a short time pour their golden wealth into the markets of the Eastern Hemisphere.

Then comes the day of HARDY BAY, the natural great deep-water outlet of the West, hundreds of miles nearer the great purchasing centres than even Vancouver.

It needs no prophetic eye to see HARDY BAY turned into a busy hive of industry in a very little while, and then land of all kinds will be at a premium.

We can offer you splendid 20-ACRE TRACTS close to the coming great port, at \$30 per acre.

A payment of \$75 down will secure you your choice, and the balance may be paid in easy instalments.

Let us give you some particulars.

NEWS OF THE CITY

Given Six Months—In the county court yesterday morning Judge Lampman sentenced J. J. Cavin to serve six months imprisonment for stealing an engine from a motor launch in the inner harbor.

Awarded Contract—The contract for the erection of the fine residence for Mr. E. D. Todd, on Newport avenue, Oak Bay, has been awarded to Messrs. N. Bannock & Sons. The contract price is \$15,000.

The Salmon Run—The salmon run of the past week shows signs of falling off. Along the coast, in the salt water inlets, the harvest of salmon is still at its prime and it will probably last quite a time longer, but the fresh water supply is gradually becoming smaller.

Orphans Plucked—On Wednesday the children of the Protestant Orphanage, under the care of Mrs. Kaye and Miss Mose spent a happy day at the Gorge park, a picnic being provided by eight little Oak Bay friends. Transportation which greatly added to the pleasure of the day, to and from the home, was very kindly arranged by the management of the B. C. E. R.

Arlon Club—On Tuesday evening next the Arlon club, consisting of forty of the best male voices in the city, will give an open air concert at eight o'clock in front of the parliament buildings, special permission having been kindly granted by Sir Richard McBride, premier of the province. The weather conditions promise to be of the best. The club have been rehearsing a programme of twelve numbers, opening with "Of Cats and Dogs," and it is safe to say they will sustain the reputation they have in Victoria and elsewhere, for the past twenty years.

Dr. Wolverton Planned—I believe the selection of the new university, as was cheerfully representative and satisfactory," declared Dr. Newton, Wolverton of Nelson, on his return to the mainland. "For instance, the Kootenay district has two representatives and the other portions of the province are well represented. I also believe that the selection of Dr. C. A. Cotton as chancellor will meet with general approval. It means for one thing that as soon as the new institution is under way McGill will retire from the field. I believe the university has a bright future."

Tells of Progress—Mr. F. H. Shepherd, M. P., spent yesterday in the city on business affecting the interests of his constituents. He says conditions in Nanaimo are on a very satisfactory basis. The city is feeling the impetus of growth and expansion in common with larger coast cities. Extensive improvements will start on the post office at Nanaimo on October 1. Communications have been received by the secretary of the board of trade from residents of the Old Country requesting information as to the prospects in several lines of business. Arrangements have been made for the city to have an exhibit at the Dry Farming Congress to be held in Lethbridge in October. Altogether Nanaimo is getting along splendidly.

Ended Fatally—Elinor Morin, the six-year-old daughter of Mr. and Mrs. Morin, died last evening at St. Joseph's hospital from the effect of injuries received from a kick from a horse last Sunday. The parents of the deceased who reside in Dawson, where the little one was born, are on a visit to Mrs. Morin's father and mother, Mr. and Mrs. Ray, of Saanich. It was at their ranch that the accident took place last Sunday. The little one was tending too near a spirited horse, which kicked her violently on the nose. She was brought in as quickly as possible to St. Joseph's hospital, where she was found to be suffering from severe concussion, from which she never recovered. The funeral arrangements are being made by the Victoria Undertaking parlors.

Christian Endeavorers—At the annual convention of the Christian Endeavor society of British Columbia, at Vancouver, the election of officers resulted as follows: President, W. J. Short, Victoria; first vice president, Mr. W. R. Manson, Nanaimo; second vice president, Mr. J. S. Rankin, Vancouver; third vice president, Rev. E. Douglas, Chilliwack; secretary, Mr. R. S. Clement, Victoria; treasurer, Mr. W. J. Hogg, Vancouver; international transportation manager, Mr. F. A. Cleland, Vancouver; superintendent of Quiet Hour, Miss Chapman, Vancouver; superintendent of junior work, Miss G. McKennie, Vancouver; assistant superintendent, Miss Ross, Victoria; trustees, Messrs. W. C. Findlay, Roy Pendray, H. M. Cribb and H. O. Lamb; pastoral trustees, Rev. H. A. Carson, Victoria; Rev. S. J. Thompson, Nanaimo; Rev. J. S. Henderson, New Westminster; Rev. H. Perry, D. D., Vancouver; Rev. J. K. Unsworth, Vancouver; Rev. J. C. Switzer, Vancouver; Rev. L. W. Williamson, Vancouver.

West Indian News—Mr. R. B. Shepherd of Nassau, New Bahamas, is at the Empress with Mrs. Shepherd. He states that all the West Indies are watching eagerly for the ratifying of the trade agreement between Canada and the majority of the West Indian colonies, and they are also confident that when the isthmus of Panama is made an international highway the West Indies will be able to send in their sugar, their plantains and their bananas much cheaper than they can now be obtained in British Columbia. The West Indies are looking forward with as much anticipation, as are the ports on the Pacific coast of America, to the completion of the big canal, hoping to get advantage in the purchase of supplies, where they fall short, as they often do; whilst it is expected that the West Indian islands will at certain seasons of the year be ports of call for tourists, just as the mainland resorts in California are now.

Cricketers' Five O'clock—Mrs. Edgar Dewdney and a number of other ladies will hold a reception at the cricket grounds of the Jubilee hospital this afternoon between 5 and 7 o'clock. It is hoped that as many Victoria people as can spare the time will take advantage of the opportunity to get acquainted with the boys in flannel who have given Victorians such admirable sport this week.

Executive Council—There will probably be a meeting of the executive council on Monday morning in order to dispose of several routine departmental matters.

Equinault Election—Preparatory to the forthcoming election of a reeve and councillors for the newly-incorporated municipality of Equinault, Mr. A. B. Ellis, the returning officer, has arranged to sit for the purpose of registration of voters on Tuesday evening next at the store at the corner of Dominion and Craigflower roads from 6:30 to 8 o'clock. Approximately 350 voters will be entitled to exercise the franchise.

Mount Wedgewood—The geographical board at Ottawa has decided to change the name of Mount Katharine, near Mount Assiniboine (the Matterhorn of the Rocky Mountains) to Mount Wedgewood, because there is already a Mount Katharine near a lake of that name. It was during the summer of 1910 that Dr. T. G. Longstaff and his sister, Miss K. L. Longstaff, made the first ascent of Mount Katharine. Miss Longstaff is now Mrs. A. F. Wedgewood, of Thornbury, Ont., Canada.

Councillor Resigns—Mr. Wm. Noble has resigned his position as a councillor of the Oak Bay municipality. He has served on the council for several years, and occupied many important posts, including that of chairman of the finance board, police commissioner, and also of acting reeve. The police force of the municipality is now being reorganized, applications for the post of chief of the police having been called for, and while vacancies among the force have to be filled owing to recent resignations.

Labor Day—Everything points to an attractive Labor Day demonstration in Victoria under the auspices of the Trades and Labor Council. Large numbers of visitors are expected from Nanaimo, Ladysmith and other points. Thirty unions are expected to participate in the parade, and there are 48 events on the programme at Beacon Hill for the afternoon. The dance will commence at the Gorge pavilion, 7:30 and hand music will be heard throughout the day by those who attend the sports and parade. A stage for dancing will be provided.

Looking to Future—Dr. J. Nieto, the president of the western section of the B. C. B. N. association, which jurisdiction covers all the Pacific states as well as Arizona, New Mexico and British Columbia, is at the Empress in company with Mr. G. C. Ringolewsky, the general advocate of the association, and will have an interview with the provincial ministers and the representative business men of this city with a view to preparing a welcome to the hundreds of their fellow countrymen who are expected to reach the coast within the next few years. They are most enthusiastic in their expressions of admiration for the province and have already made an arrangement with their co-religionists in Vancouver, which they hope to duplicate in this city.

Reception to Visitors—There will be a public reception this evening to the members of the British Legion, who are to arrive today from San Francisco. The reception is being given in their honor by the government of the province and will be held in the legislative chamber. It is expected that his honor the lieutenant-governor will be present, while the premier and the members of the cabinet who are in the city will attend and welcome the guests. The handsome decorations which were placed in the chamber under the direction of Mr. Edward Ryan, superintendent of the buildings, for the reception of the members of the university convocation were left in place for this occasion. Refreshments will be served in the lower rotunda.

Seek Assistance—A deputation of ladies representing the executive committee of the Vancouver Rescue Home waited upon Sir Richard McBride yesterday afternoon. The ladies in the party were Mrs. J. K. Unsworth, Mrs. F. C. Wade and Mrs. Forbes McDonald. The present home, it was explained to the premier, is too small for the work and the committee is desirous of enlarging it. They asked that the government aid the home by a grant which will enable the managers to purchase another site or enlarge the home to meet the demands which are made upon it by the growth of the city. It was argued that the work being done by the home is of a reformative character, and that were it not for it there would be greater demands upon the provincial treasury for the care of those who are saved from a criminal career by its influence. The premier promised that the representations made by the deputation would have the consideration of the executive.

Poles Unadorned—Because the city has not the funds wherewith to carry out the work, it is certain that for this year at least no attempt will be made to carry out the recent recommendation of the council that the city's poles upon city thoroughfares be painted. The cost of the work is estimated at about \$10,000, and it was decided at yesterday's meeting of the streets committee the city engineer stated that he believed the B. C. Electric company and the B. C. Telephone company would paint their poles if the city would do the same. It was decided to allow the matter to stand over until next year. As to the city contributing one-half the cost of underground conduits constructed by the B. C. Telephone company on a number of streets, the bylaw providing for the placing underground of overhead wires having stipulated that proportion as the city's share, the city solicitor will be instructed to report if the necessary bylaw providing for the payment to the company of the amount has been passed, and if not it will be prepared for submission to the ratepayers.

Port Hardy, on Hardy Bay, near Government wharf, lots from \$115. Terms \$25 cash and \$15 per quarter. Apply Croft & Ashby, 126 Pemberton Building, Victoria.

Twenty-five dollars cash and \$15 per quarter will buy a \$115 lot in Port Hardy. Apply Croft & Ashby, 126 Pemberton Building, Victoria.

Hospital Dues—The Colonist is asked to state that the Privy Council has decided that hospital notes are now due and payable at the Bank of Montreal.

Made on Sidewalk—R. R. Watson pleaded guilty to the charge of riding a bicycle on the sidewalk on Queens avenue on August 19, and was fined \$5 in the police court yesterday.

Engineers on Range—The Royal Canadian Engineers, under command of Major W. B. Lindsay, will carry out their rifle practice in connection with the annual training from Monday to Friday of next week at the Clover Point rifle range.

Minister Returning—Hon. Thomas Taylor, minister of public works, is expected back tomorrow from Revelstoke, where he went to lay the cornerstones of the new wing of the Victoria hospital. He also turned the first sod of the fine road which is to lead to the park proposed to be established on the top of Mount Revelstoke.

Commands Fifth Regiment—Owing to the absence on leave of Lieut-Col. A. W. Currie, officer commanding the Fifth Regiment, C. G. A., Major W. Ridgeway-Wilson has assumed command of the regiment until the return of the officer commanding. Lieut. R. P. Clark will take over the duties of adjutant, which post has been held by Major Wilson.

Team Not Secured—Fred Painter was fined five dollars in the city police court yesterday for leaving a team of horses without a weight to secure them. The constable who laid the information also charged Painter with leaving his team across the intersection of a streetway, but this charge was not proceeded with.

Judgment Reserved—Frank Manouche, an Austrian, was charged before Magistrate Jay in the city police court yesterday with having obtained \$50 from Frank Police for the purpose of paying the money to Mr. H. C. Lowry for use in an appeal to have been made on behalf of Frank Simone, an Italian, who was imprisoned for two and a half years for shooting at a fellow countryman, and saving the money to his own use. Evidence was given by several Italians that the money was obtained from Pascal Deroni and paid over by Police to accused. The accused maintained that he had not received the money. Magistrate Jay reserved his judgment.

Heavy Work Finished—The officials of the trace department of the B. C. Electric railway company, no less than the patrons of the street cars, are rejoicing at the fact that at last the heavy work in connection with the payment of Government and Superior streets, in the James Bay section, is approaching completion. The job of placing double tracks in position on the streets mentioned was a very tedious one, and in the interim the car service was seriously impeded, much to the discomfort of patrons of the Beacon Hill and Outer Wharf lines. Within a few days, however, the lines should be open for through traffic and then it will be possible to give a much improved service.

Addressed Y. M. C. A.—An open meeting was held last evening in the Young Men's Institute hall on View street, which was addressed by Dr. E. Ryan, of Kingston, Grand master, examiner of the Catholic Mutual Benefit association, and Grand Organizer James Brown, of Moncton, N. B. The chair was taken by Rev. Father Leterme, president of the institute, and His Lordship Bishop Macdonald was also present and spoke. The visiting grand officers both made admirable speeches on the work and aims of the association, which were listened to with much interest by the large gathering present. Several applications for membership were received during the evening. The grand officers have found the greatest enthusiasm and activity displayed in all the branches they have visited since leaving the B. C. and coincides that they have had a most successful tour. Before their journey is ended they expect to have organized as many as twenty-five branches. Dr. Ryan was formerly mayor of Kingston for several terms, and is now president of the board of trade of that city. Later on it is intended to appoint a permanent organizer for this province.

OBITUARY NOTICES

Morris—The death occurred at Sidney yesterday, suddenly, of Mr. Frank Baxter Morris, who succumbed to an attack of heart disease after short illness. The deceased, who was 52 years old, was a native of Northamptonshire, England, and is survived by a widow, seven daughters, Ethel, living in England, and Irene, Hilda, Jessie, Kathleen, Grace and Mary. Addition all of Victoria; also three sons Tom, living in Victoria, and Reginald and Frank, in Sidney. The funeral will take place on Monday at one o'clock from the family residence, 1411 St. James street, at the parish Anglican church, the Rev. Mr. DesRosa officiating.

Davidson—The funeral of Baby Florence Agnes Davidson took place yesterday afternoon from the residence of her mother, Mrs. Davidson, Rev. W. T. Taggart officiating. A large number of friends attended and there were many floral offerings.

Noobs—The funeral of Baby Gordon Tranter Noobs took place yesterday afternoon from the residence of his parents on John street, Rev. Thos. Greene officiating.

Bishop—The funeral of Baby Gertrude Bishop, infant daughter of Mr. and Mrs. Bishop, Princess avenue, took place yesterday afternoon from the B. C. Funeral parlors, Rev. A. J. Stanley officiating at the graveside.

Births, Marriages, Deaths

BORN
SHADE—At the St. Joseph's hospital, on the 18th inst., to the wife of F. W. Shade, a daughter.

DIED
MORRIS—At Sidney, Aug. 23, Frank Baxter Morris, aged 52 years.
The funeral will take place from the family residence, 1411 St. James street, on Monday at 1 o'clock to South Saanich church, Rev. Mr. Winton officiating.
Floral offerings will be accepted at the home of Hanna and Thomson. Friends please accept this intimation.

CARD OF THANKS
Mrs. Agnes Davidson deeply wish to thank their many friends for their kind words of sympathy and beautiful floral offerings during their recent and bereavement.

Own A Piano

Or Player Piano at a Medium Price

One carload of the best medium-priced Pianos and Player Pianos made in Canada has just been unpacked here.

These instruments have established a reputation for themselves all over Canada, for tone and durability. They are

Mendelssohn Pianos

Named for the great composer and worthy mediums for the perpetuation of his name. The instruments just received are the best examples of the fine Mendelssohn makes ever shown on the coast. Every instrument has a remarkably sweet, full, mellow tone, and the cases are artistic and handsome.

Accident at Cement Works

COLEMAN, Alta., Aug. 23.—Stewart, a Scotchman, had his skull crushed while working in the cement works at Balmora Thursday. He was taken to the Frank Hospital and slight hopes are entertained for his recovery.

SAPHO

—Not the creation of the French dramatist—but the greatest piece of ancient Greece was equally famous for her beauty and her will. She lived a great age, retaining her remarkable beauty long after the power of her intellect had waned. Her contemporaries tell us that she bathed her skin daily with a lotion of Almonds and Roses. The secret of this preparation was known to only a few of the renowned beauties of the age, but it is sold today by all druggists under the name of Sapho's Almonds.

Parisien Pictures

A Pageant of Peerless Gowns

From Fashion's Temple

It would require the poetic pen of a Ruskin to do thorough justice to the exquisite beauty and dainty loveliness of our latest Parisian Gowns and Bandings. Nothing so delicate and pretty has ever been seen in Victoria. They represent unparalleled quality in material, unique skill in workmanship and artistic daring in design. If it is only to see what 20th century industry and ingenuity can accomplish—you cannot afford to miss this lavish display of French fashions.

Hand embroidered unmade Robes and Tunics, in Brussels and the new shadow laces, Swiss Eyelet Brussels Net, designs in lace flouncings and Persian trimmings, together with new Lace Bandings in Duchesse, Antique and Oriental—all these will simply delight the eye of the true connoisseur.

We invite you to inspect our north window. Then you will understand why we are diffident about a more detailed description.

Women's Sweater Coats

There are few garments of such serviceable wearing value as a Sweater Coat. Warm, neat and comfortable—they are just the things for these chilly evenings. Our new Sweater Coats are guaranteed to be made of pure wool and Shaker knit, and have no machine sewn or cut seams.

The Gurney-Oxford Enthusiast

The housewife who owns a Gurney-Oxford—who has daily experience with it—who knows the way it works—the economy and efficiency of it—is a Gurney-Oxford enthusiast.

The Gurney-Oxford Range is the sum total of 70 years' experience in stove construction. It is a big, up-standing, handsome stove that works constantly and unflinchingly for its owner's satisfaction. It stands guard over her interests, conserving her time and energy, effecting a daily saving in coal, adding to the household economy and increasing the pleasure which comes from a smooth-running and well-ordered household.

That's why she enthusiastically recommends the Gurney-Oxford whenever the question comes up.

She wants her friends to learn what she knows to be a fact, that the Gurney-Oxford is a good housewife's most valuable and cherished possession.

Drake Hardware
1418 DOUGLAS STREET

HIGHWAY TO TOP OF MOUNT REVELSTOKE

Mon. Thomas Taylor Official at the Turning of the First Sod and at Laying of Cornerstone

REVELSTOKE, Aug. 23.—Revelstoke held the greatest celebration in its history on Wednesday when the presence of seven hundred and fifty citizens, Hon. Thomas Taylor, minister of public works and member for Revelstoke in the Provincial legislature, declared the cornerstone of the new wing of the Revelstoke Victoria Jubilee hospital wall and truly laid. Accepting an engraved silver trowel as a memento of the occasion, Mr. Taylor in an appropriate speech, announced that the Provincial government, in addition to voting \$50,000 towards the building fund, would also assist generously in providing equipment for the new wing.

From the hospital the citizens and guests of the city adjourned to Columbia River park, where Hon. Thomas Taylor turned the first sod of the Mount Revelstoke scenic motor car highway. The park is about one mile northwest of the city where the new highway leaves the Big Bend road for the first of its series of switchbacks to the summit of Mount Revelstoke, 7000 feet above the sea level. The park grounds were fully decorated with flags and banners, while hundreds of picnic tables had been provided by the management of the Progress club who arranged the affair.

Upon arrival at the grounds, a monster basket picnic was indulged in, after which the crowd assembled around a raised platform in the centre of the park, on which were gathered the speakers of the day, the mayor and city officials and the most prominent members of the Progress club.

Hon. Thomas Taylor praised the Revelstoke Progress club for their business ability in securing this road and for the manner in which they were celebrating their success. He then proceeded to do the manual part of his undertaking and turned over the initial sod and planted a suitably engraved granite post to mark the spot. He told the assemblage that he had just received word from Engineer Ford, of his department, that arrangements had been completed to commence work on the construction of the road today, and assured them that further money to complete the highway would be forthcoming.

Mr. R. F. Green, M. P., promised the citizens of Revelstoke to use his utmost endeavor to secure them the assistance of the Dominion government in their undertaking. Dr. E. S. Rowe, of the Vancouver Progress club also spoke.

NIAGARA WILL BE READY IN MARCH

New Canadian-Australian Liner May Be Fore-runner of Other Large Vessels for This Route

It is expected that the new Canadian-Australian liner Niagara, will leave the builders' hands in March next and will direct for Sydney. What route she will take as far as is known, has not been decided upon.

The Niagara, in all probability, will be the fore-runner of a fleet of this class of vessels, as the trade between Australia and Canada has increased by leaps and bounds within the last twelve months. Of course, this is nothing definite yet, but the belief is prevalent that the company will be forced to build to keep pace with the demand for passenger and cargo accommodation. The new ship, it is stated, will be the largest of the class, and is now filling that capacity in the machine room at the Victoria shipyard.

It has been a cause for wonder why the Management did not take a place in the fleet of the Canadian-Australian line, but the reason was the absence of refrigerating space, as this is an important feature in the vessels of this line, she could not be utilized. Otherwise, she would have made an excellent addition to the fleet.

PASSED BY CUSTOMS

Steamer Tacoma Maru Alleged to Have Violated Regulations at Port Townsend

PORT TOWNSEND, Aug. 21.—The Japanese steamer Panama Maru, arriving from Yokohama via Victoria, will have some explaining to do to the customs officials for proceeding from this place to Tacoma without having her hatchways sealed or taking on board a customs officer, and also for proceeding without being boarded by immigration officers.

The Panama Maru left Victoria last night at 8 o'clock. The quarantine officer boarded her at the British Columbia pier, inspecting the passengers and crew while the vessel was crossing the straits, and gave her pratique.

Collector Harper telegraphed to Tacoma for an explanation, upon which the extent of the penalty for her violation will depend.

Engineer's License Suspended
The license of Edward G. Triplet, engineer of the ship Armat, was suspended yesterday for ninety days as a result of negligence in responding to signal bells at Everett last week when the vessel crashed into the dock, causing considerable damage.

It was shown that Triplet correctly understood the signals from the bridge, but that he was breaking in an order who was at the throttle, and that this man misinterpreted the signals. Triplet was held directly responsible for the acts of his subordinate.

Twenty-five dollars cash and \$15 per quarter will buy a \$115 lot in Port Hardy. Apply Croft & Ashby, 126 Pemberton Building, Victoria.

Port Hardy, on Hardy Bay, near Government wharf, lots from \$115. Terms \$25 cash and \$15 per quarter. Apply Croft & Ashby, 126 Pemberton Building, Victoria.

AMUSEMENTS

Pollard Juveniles—The Pollard Juveniles, who arrived from Australia on the Makara, will begin their tour of Canada and the United States tomorrow in Seattle, when they open a two-weeks' engagement. They come to Victoria for four nights, September 11 to 14. This is the fifth world tour of the famous juvenile organization, and it is certain to be as successful as the previous ones. The company contains several of the old favorites and also some who will doubtless become as greatly thought of. Teddy McNamara and Willie and Eva Pollard are still in the company, and Miss Queenie Williams is one of the new members of the aggregation, who is bound to be a favorite with the public. Mrs. Chester and Mr. Finlay Pollard are in charge of the tour.

The Squaw Man—At the matinee this afternoon and the final performance to-night the Allen Players will be seen in The Squaw Man, the great western comedy drama in which William Faversham starred so consistently. Appearing here in the part which Mr. Faversham took in Mr. G. D. Zucco, whose able representation of the character of James Wynegate has stamped him an actor of no small power. Possessing an expressive voice and a splendid physique, he stands very prominently in the profession. The leading lady of the company, Miss Vera Epton, is appearing as the Indian woman, Nat-U-Ritch with distinction. "Sally," James Mitchell makes a perfect Henry "Kor-hill." Baby Adelaide, who appears as the Indian child, is a Victorian making her first stage appearance, and doing well. The Squaw Man is a strong drama lightened by considerable comedy and makes a most enjoyable evening's entertainment.

WATER NOTICE

For a Licence to Take and Use Water
Notice is hereby given that Joseph William Carey, of Parkville, B. C., will apply for a licence to take and use one cubic foot per second of water out of a creek, which flows in a northerly direction through Section 106, Nanose District, and empties into Strait of Georgia, near Parkville. The water will be diverted at the southerly boundary of Section 106, Nanose District, and will be used for irrigation purposes on the land described as Section 106, Nanose District.

This notice was posted on the ground on the 24th day of August, 1912. The Applicant will be filed in the office of the Water Recorder at Victoria, B. C.

Objections may be filed with the said Water Recorder with the Controller of Water Rights, Parliament Buildings, Victoria, B. C.

J. W. CAREY, Applicant.

Too Late to Classify

Western Lands Limited

1201 Broad Street, Corner of View

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever: nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

August 29

At 2 p. m. Particulars later.
JOSEPH H. LIST,
Auctioneer 610 Cormorant Street.

A Poor Weak Woman

As she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such troubles.

Every woman ought to know that she may obtain the most experienced medical advice free of charge and in absolute confidence and privacy by writing to the World's Dispensary Medical Association, K. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce has been chief consulting physician of the 'Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for many years and has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world-famous for their astonishing efficacy.

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription.

IT MAKES WEAK WOMEN STRONG. SICK WOMEN WELL.

The many and varied symptoms of women's peculiar ailments are fully set forth in Plain English in the People's Medical Adviser (1006 pages), a newly revised and up-to-date Edition, cloth-bound, will be sent on receipt of 50 cent stamps to pay cost of wrapping and mailing only. Address as above.

CAR FERRIES FROM VICTORIA

Representative of Harriman Interests Investigated Site for Slip at the Outer Wharves—Big Project

TO DISTRIBUTE SEA FREIGHT FROM VICTORIA

Mr. Skinner, of Oregon-Washington R. & N. Co., to Report Regarding Facilities for Service

After investigating the conditions at the outer wharf for a car-ferry slip for a service planned to make Victoria the point of distribution for overseas cargo handled by the Harriman system and Chicago, Milwaukee & Puget Sound railroads, Mr. Skinner, recently appointed assistant "traffic manager" of the Oregon-Washington Railway & Navigation Company, has returned from a visit to Victoria.

Mr. Skinner arrived here on Tuesday to consult with Mr. R. P. Hittner regarding a car-ferry landing at the south end of the new wharf at the outer docks and looked over the ground thoroughly. The O. W. R. & N. Co. is associated with the Chicago, Milwaukee & Puget Sound railroad in the northwestern coast and operates a fleet of car ferries between Bellingham and Seattle, handling the freight from the Bellingham Bay railroad to the Chicago, Milwaukee & Puget Sound depot at Seattle. Each of the car-ferry barges operated from Bellingham to Seattle has capacity for 18 loaded cars.

It is reported that the Harriman interests who operate the Oregon-Washington Railway & Navigation Co. which works in joint traffic arrangements with the Chicago, Milwaukee & Puget Sound railroad, propose to establish a car-ferry service from Seattle to Victoria. With this car-ferry service in operation the railroads would assemble their seaborne freight here to be loaded on the vessels plying to the ports of the world from the outer wharves and would distribute their overland freight landed here by the deep-sea vessels. It could be loaded in the cars from the steamers at the outer wharves.

The establishment of the car-ferry service, it is understood, will be subject to the report made by Mr. Skinner to the railroad interests. The O. W. R. & N. Co., which he represents, is part of the extensive Harriman system, and has joint trackage between Seattle and Tacoma with the C. M. & P. S. Sound line, and the companies have a joint passenger depot at Seattle. They also have a joint road in the Gray's Harbor country to Hoquiam. Between Seattle and Centralia, Washington, the roads operate over the Northern Pacific line and thence the O. W. traffic is cared for over the Chicago, Milwaukee & Puget Sound line.

The car-ferry service operated by these interests from the Bellingham Bay railroad to Seattle has proved very successful and it is likely that a similar service from Victoria to the Sound would be equally satisfactory.

SALVOR OFF TO PANAMA

Continued From Page 1.

degrees on the shore side. The main-deck is submerged at low water. The bottom is good and rests on a soft muddy surface.

When Lloyd's was advised of the sinking of the Newport steps were taken at once to secure a salvage vessel to proceed to the scene. There are no suitable plants at San Francisco or other southern ports and negotiations were promptly entered into with the British Columbia Salvage Company to despatch the Salvor. It is necessary under the subsidy arrangement with the Dominion government to secure permission from Ottawa to enable the steamer to leave British Columbia waters, and this permission has been forthcoming. The Ottawa government realizing the importance of the protection of the large underwriting interests held by Lloyd's on this coast, amounting to many millions of pounds sterling. It is not the first time the Salvor has been sent outside the waters of the province, having gone to raise the steamers Northwestern, Marchen, and other vessels in Alaskan waters, but never has any salvage steamer in Canada been sent on such a distant mission.

The Salvor was brought to the C. P. R. wharf yesterday morning from Esquimalt to take on coal and provisions for her voyage. Capt. Stratford assigned his crew yesterday afternoon. The steamer is carrying a complement of 60 people. She is fitted with 12 large centrifugal pumps, mostly 10-inch pumps, several of them driven by gasoline motors, in addition to many smaller duplex and general service pumps. Each of the large pumps has a capacity of 600 tons of water an hour, and the Salvor, when her large pumps are all working, can lift over 8,000 tons of water an hour. The vessel is provided with a complete compressed air plant for driving the pneumatic tools, riveters, cutters, hammers, etc., when working under water and her main deck is practically a floating engine shop. Capt. Stratford is in charge of the vessel and the salvage work is divided into departments. There are five divers on board for the underwater work, in charge of Diver J. McHardy. Chief Engineer Allan is in charge of the machinery

Steamer Salvor of B. C. Salvage Co., coaling at C. P. R. wharf yesterday for her voyage to Panama

Work and Chief Officer Denyer of the salvor.

Proceed at Full Speed

The Salvor will proceed at full speed to Bellingham and is expected to arrive at the scene of the wreck about September 5. The divers, Messrs. McHardy, DeCosta, Funnigan and two others, will be sent down to make a complete examination of the Newport and a plan prepared in the draughting room of the Salvor for raising the vessel, will be decided upon. The salvors are confident that their work will be successful. If any holes are found these will be patched and after the wreckage of the fallen warehouse has been lifted away, the sunken hull will be made tight and the pumps connected to lift the water from the interior. As soon as the pumps start to work they anticipate that the vessel will lift, and if the engines have not been damaged the steamer will be made ready to return to San Francisco under her own steam. If any damage has been sustained to the machinery the Salvor will tow the Newport to the Golden Gate.

In view of the record made by the Salvor and her crew in British Columbia and northern waters, little doubt is entertained for the success of the expedition to Panama. The steamer Marchen, which was lying in 35 feet of water at Valdez, Alaska, was badly holed as a result of striking the rocky all the rugged Alaskan bay, and lay in an exposed position. Yet the divers made underwater repairs to the badly damaged German steamer and the vessel was raised and brought with steamer Yankee from the scene and was stepped off the side of the house with the deck tilted at an angle of forty degrees as the steamer went down.

Will Advise Victoria.

The Salvor proceeds under two usual Lloyd's salvage agreement which provides for a small payment to cover the cost of the expedition in the event of failure and compensation to be arranged by Lloyd's on the raising of the sunken vessel.

In granting permission for the Salvor to proceed to the Newport, the Dominion government has rendered a big service to the underwriters and also to the port of Victoria, the despatch of the steamer showing that assistance facilities are provided here for the safeguarding of shipping on this coast. Not many Victorians realize the great value to the shipping and underwriting interests of the maintenance of the salvage plant at Esquimalt. This large plant is held in readiness, in similar manner to the equipment of a fire department, to proceed immediately to the scene of any mishap to shipping, and it is largely on the credit of the port that such a plant should be held in readiness here for all emergencies. The plant is not a small one, being, in the opinion of seafarers competent to judge, second only to that of the Liverpool Salvage association, and even that famous plant is rarely sent to such a distance as that on which the Salvor has started to render those important services required by underwriters and large shipping interests. With the growth of shipping on the North Pacific coast and the prospect of the great development to follow the opening of the Panama canal, the despatch of the salvage vessel on this trip clearly demonstrates the effectiveness of the facilities held here to safeguard the shipping which will ply to this port when the Panama canal is completed. This will be an additional impetus for shipping to come here.

Captain Logan's Record

Captain W. H. Logan, who is at the head of the salvage expedition to Panama, has had a very large experience in salvage work and is considered by the underwriters to be one of the most noted experts in this line. He was formerly stationed on the Mediterranean, and then on the Atlantic coast, and was the commander of the Indravell, when with sugar for Vancouver, went ashore on Kellett bluff, San Juan Island, some years ago, and was floated by the Salvor and taken to Esquimalt, where he was sent here from Montreal, where he was stationed in charge of the underwriters' interests in Canada. Captain Logan arranged for the necessary repairs to the Indravell at Esquimalt and was afterwards sent to the Pacific coast

TIME EXTENDED ON BREAKWATER

The plan for restoring tenders for the construction of the breakwater from Ogden Point to shelter the new steamer Taylor works for Victoria has been extended from September 15th to September 18th. Advances to this end were received yesterday from Ottawa.

to look after the underwriting interest in the Pacific.

He decided to make his headquarters at Victoria and has lived here since.

In the past ten years, Captain Logan has raised about 100 steamers, including some of the largest liners. Among the vessels saved by him are the Anselm, after lying nearly four months on a reef in the Caribbean sea; the R. M. S. P. company's steamer Trent, which recently came into prominence by rescuing the Wallman balloon in the Atlantic, having spent three months on that vessel in the West Indies; the steamer Mallin Head, the S. S. Lawrence. He raised the C. P. R. steamer Mount Temple from the Nova Scotia coast, the Cairnmore, Main Head and Laurentian on the Atlantic coast of Canada; the Dabney in the Bahamas; Baysboro from the Florida reefs; Alameda and Healyville from the island of Abaco, the Leyland liner Favonia and Leonardo in the Mediterranean; Bavarian of the Allan line in the St. Lawrence and many others. In many cases he had some stirring experiences, having, as he puts it "an hour in every salvage case that couldn't be bought anywhere." When he raised the U. S. steamer Yankee from the scene and was stepped off the side of the house with the deck tilted at an angle of forty degrees as the steamer went down.

Since coming to Victoria he has made a number of expeditions on the Salvor

being on board when the steamer Northwestern was floated from San Juan Island, when the steamer Spokane was raised from Plummer bay, and on other works. He expects to successfully raise the Newport and anticipates that the Salvor will be back used by the Esquimalt within three months.

The Salvor, which was formerly the C. P. R. in the transpacific steamship line, is a vessel with a history. She was the first vessel to voyage through the Suez canal with cargo homeward-bound, and in the latter stages was used by the C. P. R. steamer Danube, is herself, a service from Victoria to Hongkong. Later she was used in the B. C. coast line trade for the C. P. N. Co.

MARIPOSA HAS AN ACCIDENT

Crashed Into Wharf and Afterwards Ran Ashore at Valdez—Mishap Due to Misunderstanding of Signals

VALDEZ, Alaska, Aug. 23.—The Alaska Steamship Company's steamer Mariposa, returning from the westward today, crashed into the wharf here, destroying the western end of the warehouse thereon, and running ashore. The Mariposa itself remains stuck in the mud, apparently unharmed, but with a heavy starboard list. The accident, due to a misunderstanding of signals in the engine-room, occurred at high tide, and it is thought the Mariposa will not be rescued from her position before the next high tide. The steamship Admiral Sampson which left the wharf only a few minutes earlier, was still in the harbor, and answered the Mariposa's distress signals. She made several vain attempts to pull the vessel off. The Sampson is still standing by. The damage to the wharf, warehouse and contents is estimated at about \$3,000.

PORTLAND TO ORIENT

Hamburg-America Line May Institute Service From the Columbia to the Far East

H. F. Doregon, of San Francisco, Pacific coast manager of the Hamburg-America line, in an interview at Spokane, said: "The Portland chamber is negotiating a raise of \$80,000 for the new steamship line between Portland and the Orient, but overtures to our line, and to others, I believe, will result in the establishment of a Hamburg-America line service between the Northwest and China and Japan. The cost of building ships and maintaining the chamber to look after the line is too much for an association like the chamber, but overtures to our line, and to others, I believe, will result in the establishment of a Hamburg-America line service between the Northwest and China and Japan. The cost of building ships and maintaining the chamber to look after the line is too much for an association like the chamber, but overtures to our line, and to others, I believe, will result in the establishment of a Hamburg-America line service between the Northwest and China and Japan. IRREGULARITY IN STOCK MARKET

Coppers Continue to Be Prominent Feature—Week's Loss of Cash in Banks Runs to \$8,000,000

NEW YORK, Aug. 23.—With the volume of trading much under that of the preceding session today's stock market gave an exhibition of irregularity and professionalism. The market was characterized by a feature with recurrent pressure against the railway division. The Panama Canal bill was again regarded as a contributing factor, but this was offset in a measure by the early adjustment of the market. Rumors of a proposed bill by the government against the American Telephone and Telegraph company, which was not confirmed in official sources, caused some early selling of that stock.

United States Steel was under less pressure than recently. Miscellaneous speculation had brief periods of activity at higher prices. The tobacco issue, Consolidated Gas, Agricultural Chemical and Medford Petroleum, ending from 1 to 3 points, with 9 points for American Sugar. Business became stagnant in the final hour but prices crept slowly upward to the close of the day, with greatest strength in Amalgamated Copper and Allied stock, as well as American Smelter. The rise in the issues received no little impetus from the fact that some amounts of copper metal were being sold at 16 cents. The market exception to the general rise was Chicago and Northwestern, which yielded two points.

Estimates of the week's loss of cash by the local banks ran as high as \$8,000,000. It was generally believed that the decline would soon be remedied by disbursement of pensions and other government obligations. Bank exchanges continue to expand and complications with the most active factory companies, with recent gains in some months. Irregularity with weakness in Illinois Central refunding four. Total sales, par value, \$1,258,000. United States Steel was the only stock unchanged on call; government bonds were unchanged on call.

GRAIN MARKETS

WINNIPEG, Man., Aug. 23.—Trading was more active on the wheat market during the early hours and option prices were stronger. Liverpool cables were 1/4 to 1/2 higher at the close. Continental cables were all higher and the crop report this morning, construed as bullish by the trade, caused shorts to cover, contributing to the advance. The opening figures were 1/2 higher for both months, the bulk of business following after the opening prices. The closing price at Winnipeg was 1/2 higher for October and 1/4 higher for December. Minneapolis closed 1/4 higher for September and 1/2 lower for December and May. Chicago closed unchanged for September and May and 1/4 higher for December. The cash demand was good for lower grades, inquiries being off morning for numbers 1, 2 and 3, while offerings were more plentiful for the former. There was a good inquiry for oats at higher prices, while October floor was bid one cent advance and closed 2 1/2 up. Receipts were 100 cars.

WELLINGTON COLLIERY RAILWAY COMPANY

SPECIAL MEETING OF SHAREHOLDERS

Notice is hereby given that a special meeting of the shareholders of the Wellington Colliery Railway Company will be held at the Head Office of the Company, B. C., on Friday, August 30, 1912, at 10 o'clock a. m. to elect Directors and to consider the report of the Directors to issue such debentures as may be approved by the Minister of Railways, and to dispose of same as the Minister of Railways may authorize, and to consider the desirability of acquiring other lines of railway. Also to receive the report of the Provisional Directors and to consider the contracts and the expenditures made on behalf of the Company by the Provisional Directors, and to consider such financial arrangements as may be necessary, also to consider any other act, matter or thing affecting the Company.

PUBLIC ENQUIRIES ACT

His Honor the Lieutenant-Governor has been pleased to appoint:

WILLIAM HOLLAND KERRY, of the City of New Westminster, to be the City of Victoria, B. C., for the purpose of enquiring into the present system of municipal government in the Province, whether such system is authorized by Special Act of the Legislature, or by any general law relating to municipalities, and to the qualifications of voters, and the administration of justice within the municipalities, and generally to inquire into all matters municipal.

The said Commissioners will hold their meetings on the dates and at the places mentioned, namely:

At the Court House at the following places:

Nanaimo, August 19, 10 a. m.
Vancouver, August 27, 28 and 29, 10 a. m.
New Westminster, August 30 and 31, 10 a. m.
Kamloops, September 3, 10 a. m.
Vernon, September 5, 10 a. m.
Kelowna, September 6, 10 a. m.
Penticton, September 7, 10 a. m.
Grand Forks, September 8, 10 a. m.
Cranbrook, September 10, 10 a. m.
Victoria, September 11, 10 a. m.
Revelstoke, September 12, 10 a. m.

NOTICE

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Matter of the Winding-Up Act and the Matter of the Island Creameries Association, Limited.

Notice is hereby given that the Honorable Justice Murphy has fixed the fifth day of September, 1912, at 10 o'clock in the forenoon at Chambers, in the Court House, Victoria, B. C., for the appointment of an Official Liquidator of the above-named Association.

And further notice is hereby given that all persons having claims against the said Association do file proof thereof with W. T. Smith, Central Building, Victoria, British Columbia, on or before the said fifth day of September, 1912, at 10 o'clock in the forenoon.

Dated the 20th day of August, A. D. 1912.
(Sgd.) B. H. TYRWHITT, Registrar.

NOTICE TO CONTRACTORS

Industrial School for Girls

Sealed tenders, superscribed "Tender for Industrial School for Girls" will be received by the Hon. the Minister of Public Works up to 12 o'clock noon of Monday, 27th day of September, 1912, for the erection and completion of an industrial school for girls. Plans, specifications, contract, and form of tender may be seen at the office of the Government Agents, Vancouver and New Westminster, and the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works for a sum equivalent to 10 per cent of the amount of the tender, which shall be forfeited if the party tendering declines to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheque or certificate of deposit of unaccepted tenders will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelope, furnished, and sealed with the tenderer's name.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH, Public Works Engineer, Department of Public Works, Victoria, B. C., 24th August, 1912.

NOTICE

Notice is hereby given that application will be made at the next sitting of the Board of Licensing Commissioners, after the expiration of 30 days from the date hereof, for a transfer of the license to sell spirituous and fermented liquors on the premises known as the "Princess of Wales saloon," situated at the corner of Johnson and Broad streets, Victoria, B. C., from Joseph Henry Brown to Mary Jane Brown and George Andrews, and for permission to change the name to the "Tourist Bar."

Dated at Victoria, B. C., the 9th day of August, 1912.

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Estate of John Nicholson, Deceased.

All persons having claims against the estate of John Nicholson, who died on the 31st day of May, 1912, are required to send particulars of the same duly verified to the undersigned on or before the 24th day of August, 1912, and all persons indebted to the said estate are required to pay such indebtedness forthwith to the undersigned. After the said 24th day of August, 1912, the Administrator will proceed to distribute the estate of the said deceased among the persons entitled thereto, having regard only to the claims of which she shall then have notice.

Dated this 28th day of July, 1912.

WOOTTON & GOWARD, Of Bank of Montreal Chambers, Station Street, Victoria, B. C., Solicitors for the Administrator with the will annexed, duly appointed by order dated the 4th day of June, 1912.

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Goods of Catherine Hartley, Deceased.

Take notice that Probate of the Will and Codicil of Catherine Hartley, late of the City of Victoria, in the Province of British Columbia, has been ordered to be issued to Edward W. Hartley, the Executor, in the said Will named.

And further, Take notice that all persons having claims against the estate of the said Catherine Hartley are required to send full particulars of the same duly verified by declaration to the undersigned on or before the twenty-fifth day of August, 1912, and all persons owing any money to the said Deceased are required to pay the same forthwith to the said Executor. One thousand nine hundred and twelve, the said Executor will proceed to distribute the estate of the said Deceased according to the said Will and Codicil, having regard only to the claims of which she shall then have received notice.

Dated this 20th day of July, 1912.

MACKAY & MCDERMID, Solicitors for the Executor, 513 Central Building, Victoria, B. C.

TENDERS FOR 2 BUILDINGS

Tenders will be received by the undersigned up to 1 o'clock noon, August 27th, for the erection of two wooden buildings, with concrete approaches, and other work, on Woodland avenue, east of Moss St., and one on Queen's Ave., between Chambers St. and Victoria Road, as per plans and specifications, which can be seen at this office. The lowest or any tender not necessarily accepted.

W. W. NORTHCOTT, Supt. Public Buildings, City Hall, Aug. 17, 1912.

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Goods of Catherine Hartley, Deceased.

Take notice that Probate of the Will and Codicil of Catherine Hartley, late of the City of Victoria, in the Province of British Columbia, has been ordered to be issued to Edward W. Hartley, the Executor, in the said Will named.

And further, Take notice that all persons having claims against the estate of the said Catherine Hartley are required to send full particulars of the same duly verified by declaration to the undersigned on or before the twenty-fifth day of August, 1912, and all persons owing any money to the said Deceased are required to pay the same forthwith to the said Executor. One thousand nine hundred and twelve, the said Executor will proceed to distribute the estate of the said Deceased according to the said Will and Codicil, having regard only to the claims of which she shall then have received notice.

Dated this 20th day of July, 1912.

Tonight at 7.30, Women's Skirts Worth to \$6.75 for \$1.50 and \$2.50

Quality and Style Take the First Places in This Showing of Men's Suits

BUT the quality of the garments are such that few men would believe could be produced for the price unless he actually sees them for himself. It was generally considered that the very best quality of tailoring was produced by the custom tailor and that it was an impossibility to buy a really well fitting suit with a touch of individuality about it unless you had it made to your measure and paid at least \$30 to \$35, but this isn't the case today.

Like all other trades, the tailoring of men's suits has now evolved to the specialist stage. No one man tries to make a whole suit in the modern custom factory. Each little part is done by a man who concentrates on that part only, and as a result he becomes a specialist who would be very hard to beat.

Here are suits that have been made under these conditions, and that is why we are able to offer you clothes that measure well up to the standard of the very highest class of custom tailoring, at a price that is well within the reach of the average man.

Blue serge, either the unfinished rough surface style so popular with business men, or the twilled worsted serge, are to be had. Then there are the fine tweed effects that come in a variety of mixed colors to choose from, if you prefer them. The coats are in the three-buttoned sack style or the double-breasted model, while the trousers are the semi-draped style, fitted with belt straps, 2 hip pockets, 2 side pockets and 1 watch pocket.

WE HAVE YOUR MEASURE, WILL YOU EXAMINE IT AND TRY IT ON?

Prices \$20.00, \$22.50 and \$25.00

New Coatings Are Waiting for Your Verdict

WHY not call in and see these lines? We shall be pleased to show them to you, and that will prove very much more satisfactory than attempting to describe their qualities in these columns.

Reversible Coatings in the newest color combinations. All are 54in. wide and are a value that is better than the average material sold, at per yard **\$2.50**
Reversible Coatings in handsome tweed effects with reversible plaids. They are 54in. wide and are well worth, per yard **\$4.50**
Diagonal Coatings in browns, greys, navy and cardinal, 54in. wide and a rare value at, per yard **\$2.00**
Black and White Checks. These are to be had in small and medium checks, are 42in. wide and are a very serviceable quality. Per yard only **75c**
Black and White Checks, 46in. wide and to be had in small checks only. Per yard only **75c**
Admiralty Serges of excellent quality. They are 27in. wide and a value that you can't better at **50c**
Admiralty Serges, 31in. wide, at, per yard, only **65c**

Artistic and Comfortable Grass Chairs

ARE NOW SELLING AT \$2.90 AND \$3.90

FROM the large range of sizes and different shapes that we are now offering, it should be an easy matter for you to select a style that will prove of great service and comfort in your home.

While the price is quite modest, the quality of the chairs is well up to the mark that discriminating shoppers expect to see, and for solid comfort or artistic appearance, they surpass all furniture that can be purchased for at least three times their cost.

Being light, sanitary and not so liable to hold dust like upholstered furniture, they are particularly convenient and desirable chairs. Arm Chairs are marked at \$2.90, and Rockers are only \$3.90. Surely these prices are low enough to tempt even the most economical housekeepers.

Tan Calf Button or Lace Boots for \$2.95

A BARGAIN THAT WILL PLEASE MANY WOMEN TODAY

IS a very special line that goes on sale in this department this morning. We are exceptionally fortunate in securing this shipment at an extra discount from an overstocked jobber who was anxious to clear his surplus stock.

This makes it possible for us to offer you a shoe that is easily worth \$3.50, for \$2.95. They have the new stub toes that have been and are still so popular, Cuban heels, and are exceptionally well finished.

All sizes are here, and as the style is right up to date and the Spencer guarantee of quality goes with every pair, this line should sell out rapidly.

Useful Cook Books

Mrs. Weston's, each **25c**
 Cassell's, each **25c**
 New Galt Canadian Cook Book **50c**
 Weston's All About Model Cookery and Housekeeping Book **\$1.00**
 Canada's Favorite **\$1.00**
 Weston's Every Day **\$1.25**
 Living on a Kettle **\$1.50**
 Easy Entertaining **\$1.50**
 Boston Cooking School Cook Book **\$2.00**

Women's Waists

VALUES TO \$1.00 TO GO AT 45c TONIGHT AT 7.30

NOTICE the showing in the windows. There are five or six different styles to choose from, and although there is not a complete line of sizes in each style, there is a sufficient assortment to meet the demands of the average woman. That they are good value for the money is a fact that is most easy to see.

A Quaker Style made of a good linette and trimmed with a sailor collar and turn-back cuffs of checked material in colors navy, cadet or black combined with white, is a garment that should be in strong demand at this figure.

Strong Gingham Waists in either black and white or blue and white stripes, is a very serviceable garment that represents excellent quality. It is made with a detachable collar and soft cuffs trimmed with a dash of embroidery in white. The sleeves are long and the garment fastens down the front.

Print Waists, all made in the plain tailored styles. There are narrow stripes in colors black, sky and navy, fancy stripes and combination patterns of stripes and dots to choose from. Although they are not elaborate, they are a serviceable waist and are a bargain at the price. Some are finished with soft detachable collars and soft cuffs, while a few have a laundered white collar and laundered cuffs.

Fancy Muslins—A few really attractive muslin waists are included in this sale. They are made with a Dutch yoke edged with a wide band of insertion, have a panel of embroidery down the front and a wide band of lace insertion, and shoulder tucks on either side. The backs are tucked and the sleeves are three-quarter length.

Skirts for Women—Values to \$6.75

Are to Be Sold at 7.30 Tonight for \$1.50 and \$2.50

NOTICE the display of these useful Skirts in the View street window and you'll readily see why we are expecting a big crowd in the mantle department by 7.30 p. m.

Repps and lawns are the materials, some are plain tailored and button right down the front, some have a panel back and front and are trimmed at the sides with tucks and insertions, while others have deep flounces and are beautifully finished with wide embroideries.

Such a small price, combined with the fact that the garments are both attractive and serviceable, should be sufficient to make these lines leave the department as rapidly as the clerks can parcel them up.

Buy an Open Stock Tea Set

HAVE THE SATISFACTION OF ALWAYS BEING ABLE TO REPLACE THE PIECES THAT ARE UNFORTUNATE

HOW annoying it is when you have purchased an ordinary breakfast or tea service and some of the pieces get broken. You almost hate to place it on the table with the odd pieces proclaiming their presence by their blunt contrast with the balance of the set.

This is a trouble that is always overcome by the choice of the open stock patterns. The quality of these lines is excellent, and although the two lines mentioned here are somewhat plain, they are neat and effective.

Either Tea or Breakfast Sets are to be had. They are made of a good English china, have a highly glazed body and come with a band of three gold lines and a band of either pink or blue near the edges of the pieces.

Cups and Saucers, tea size are marked at, per dozen **\$2.00**
Breakfast Cups and Saucers are to be had at, per dozen **\$2.40**
Plates, 8in. are marked at, per dozen **\$3.00**
 7in. at **\$2.40**
 6in. at **\$1.50**
 5in. at **\$1.20**
Dishes, 10in. in diameter are, each **85c**
 12in. dishes are, each **\$1.00**
Fruit Saucers come at, per dozen **\$1.00**
Slop Bowls, at each **25c**

Boeckh's Reliable Brushes and Brooms

Scrubbing Brushes, at each, 25c, 30c **35c**
Washbrushes, 11in, 9in, 7in, 6in, 4in **35c**
Home Wash Carpet Brushes, at each **50c**

Paint and Varnish Brushes in a great variety of styles and sizes, up from **5c**

Men, Get Splendid Values in Underwear, Sweaters, Shirts and Sox at This Store Today

TODAY is pay day for many men, and it is only natural for the man who has worked long hours at hard work to expect that his wages will supply him with the best that is to be had at a reasonable cost.

Here are some offers that mean a distinct saving to you. Every garment mentioned in this list is a dependable quality and is really worth much more than we are asking for them today.

We know that you'll readily recognize their splendid quality as soon as you see them, and that's just the reason why we invite you to see them and compare values.

Men's Shirts and Drawers made of natural wool and a value that we sell regularly at \$1.25. They are the "Sovereign" brand and are well known to be a garment that will give entire satisfaction. Special for today, per garment **\$1.00**

Men's Shirts and Drawers for Men. These are the famous "Penguin Brand No. 11" and are a medium weight. They are as comfortable and durable as you could wish a garment to be, and a good garment to wear at the change of seasons. All sizes at, per garment **\$1.25**

Oxford Shirts of English manufacture. They are made of a stout cotton material, have turndown reversible collars, soft cuffs and are generously cut in the body. All sizes are to be had, and you'll find them to be a really high grade shirt that will prove themselves to be remarkable value at **\$1.25**

Men's Cotton Sox. Only 25 dozen of these to be cleared. They are in a variety of colors and black. Clearance price, 2 pairs for **25c**

Another line of Cost Sweaters are here and have a vest collar. Choosing from the range of colors that we are showing should be an easy matter. All sizes. Price only **\$3.50**

Electric Irons

THE Electric Iron is one of the greatest labor-saving household devices.

The amount of electricity used in heating the iron is small compared to the time, fuel and labor saved, to say nothing of the comfort of a cool kitchen to work in. This iron is neatly finished and convenient to handle, the ironing face is heavily plated, giving a smooth working surface, and the heat is evenly distributed. No danger of scorching your clothes or getting a shock. Complete with 6 feet of cable and all necessary fittings and stand. 6-pound size, price, **\$4.50**.

A GUARANTEE FOR TWO YEARS WITH EVERY IRON SOLD

NOTICE THE SMALL PRICES AT WHICH WE ARE SELLING

Blankets, Comforters and Bed Linens

BUT it is important that you should see the goods and notice the excellent quality as well as make a note of the low prices. Small prices without quality is not real economy, but as every one of these lines will stand the acid test of hard wear, we claim that they are bargains that you'll find it difficult to match.

Woolen Slips—All ready to use, have a 2 1/2 inch hem, and are made of a strong cotton. Per pair, only **25c**

Sheets—All ready to spread, measure 2 x 2 1/2 yards, are hand-ironed, will never lose their shape and are made of a durable sheeting. Rare value at, per pair **1.25**

Grecian Quilts—Just the kind of quilt that you can depend on to stand hard wear, and a quilt that is comparatively easy to launder. They are full-size and very inexpensive. Price, each **\$1.50**

White Woolen Blankets that are easily worth \$4.50, but are marked at only \$3.75. They have a soft nappy finish, have a slight mixture of cotton that adds to their wearing qualities and helps to prevent shrinkage. A bargain worth consideration at **\$3.75**

Wool Filled Comforters—Two dozen is all that we have left of this line and as the price is small they should sell rapidly today. They are six feet square, are well stitched all over, and are to be had in a variety of designs and colorings. Price, each **\$1.50**

A Serviceable Tub Dress for Your Girl

WILL COST YOU ONLY 95c OR \$1.50 TODAY

Girls' School Boots

FROM SPENCER'S LARGE STOCK

BECAUSE every pair is of such a character that it will give perfect satisfaction to both the wearer and the parent who must pay the bill. Only brands that we have had the pleasure of testing their worth and have proved their value, have found their way on to our shelves.

Comfort and style are features well combined in these models, and the question of strength has received the attention that it deserves. We invite you to inspect these lines and compare the values with any that you have seen at a competitive price.

Box Calf Bluchers—The "Good Sense" brand for girls. As the name implies, these boots are made on common sense lines. Comfort and durability are the prominent features in these boots, but they are sufficiently stylish to make them popular. The soles, counters, toes and heels are of solid leather and they come in suitable weights for fall wear. Sizes 8 to 10 1/2 at **\$1.75**

Buton Boots—Made of a strong box calf, fitted with solid leather soles and heels, also counters and toes of solid leather. These are the "Good Sense" brand, will keep their shape, will prove a pleasure to wear. Sizes 8 to 10 1/2, per pair **\$2.00**

Patent Leather Buton or Lace Boots in very stylish styles are here, and at the prices we have marked them, they should prove to be a very popular line. Just as good a boot as you can wish to buy. Sizes 8 to 10 1/2, at per pair **\$2.00**

Buton Boots, with extra high tops, are here in both black calf and tan Russia calf. They are a well made and beautifully finished boot, good to look at, comfortable to wear, and a quality that will stand rough wear. Sizes 8 to 10 1/2 are marked at \$2.50 and **\$2.75**

Patent Leather Buton Boots—Finished with cloth tops are here. All girls who love a smart and comfortable shoe will find that this line will please them. Let us show them to you. Sizes 8 to 10 1/2 are marked at **\$2.50**

Sizes 11 to 13 are only **\$2.50**

Prepare the Boy for School

AND SUPPLY HIM WITH NEW BOOTS IF HE REQUIRES THEM

CERTAINLY the weather will demand that he is well shod before the coming term is out, and even if his present supply is meeting all demands, no doubt you'll feel the benefit if you can get him an extra pair before they are really needed.

We have a larger stock than ever to choose from, and if we can say anything about the quality it is merely that they are better and more reliable lines than ever we carried in the past.

Blucher Boots in satin calf and grain leathers are here in all sizes. They are fitted with water proof soles, solid leather heels, and the uppers are the best of stock. The soles are both screwed and stitched. Sizes 11 to 13 1/2 are marked at **\$1.65**

Box Calf Bluchers—These are both stylish and strong, are a line that will stand the test and please most parents. For comfort they are all that you can wish for. Sizes 11 to 13 1/2 are marked at **\$2.00**

Buton Boots—This is the most stylish line that we have ever handled. They are finished with the new stub toe, have "Goodyear Welts" soles and are as neat like a stylish man's shoe as it is possible to make them. They are just as good as they look. Price, per pair, only **\$3.00**

High Top Bluchers for boys. Your choice from black or tan waterproof leathers in this line. They are made on a weltsed last and are a quality that we can confidently recommend. Sizes 11 to 13 are selling at only **\$2.75**

Sizes 1 to 5 are **\$3.00**

Sturdy Suits for Active Boys Cost But Little at the Spencer Store

SERVICEABLE tweeds are the most prevalent materials, but we can show you a few very good samples made of fine serges if you would prefer them. All boys from 4 to 15 years old can be fitted here, and we are confident that the styles and qualities of the garments will measure up to the standard that expectant shoppers are looking for.

Most of them are double-breasted, and you have your choice from bloomer or straight pants. The tailoring is made to stand the stress and the strain that the average boy persists in putting on to his clothes, and as the materials are as tough as it is possible to weave them, parents will be well satisfied with their investments.

Quite a range of patterns are here and the colors are so varied that you should have no difficulty in making a wise choice. The prices start as low as \$4.75 a suit and range according to size and quality up to \$12.50.
